IBM Cognos Data Manager Release Notes

This document provides a list of known problems, useful topics, and links for working with IBM® Cognos® Business Intelligence products.

For the latest version of this document, see the Information Center for this product at http://publib.boulder.ibm.com/infocenter/cogic/v1r0m0/index.jsp.

System requirements

To review an up-to-date list of environments supported by the product, such as operating systems, patches, browsers, web servers, directory servers, database servers, and application servers, see www.ibm.com/support/docview.wss?uid=swg27019126.

Installing the product

For instructions on how to install the product, see the installation and configuration guides at http://publib.boulder.ibm.com/infocenter/cogic/v1r0m0/index.jsp.

Fix list

The fix list compiles the known issues that were addressed in this release. The fix list for your product name and version is available from the following website:

www.ibm.com/support/docview.wss?uid=swg27019175

Open APARs

You can track problems that are discovered and reported to IBM as a result of a product defect. These APARs (Authorized Program Analysis Reports) remain open until a fix is available.

A list of all open APARs is available from the following website:

www.ibm.com/support/search.wss?apar=only&tc=SS9RTN&sort=desc&word=aw&wfield=open

Installation and Configuration Issues

At the time of publication, there were no known installation and configuration issues in IBM® Cognos® Data Manager. To check for open APARs, see "Open APARs" (p. 5).

IBM Cognos Data Manager Known Issues

At the time of publication, the following limitations were known:
IBM Cognos Data Manager Designer Tree Control

The Tree control in IBM® Cognos® Data Manager Designer has been updated to align with IBM standards. Wherever possible, the look and feel of the Tree control, and its functionality, remain unchanged.
