IBM Cognos Mobile - Release notes

This document provides a list of known problems, useful topics, and links for when you install IBM® Cognos® Business Intelligence.

For the latest version of this document, see the Information Center for this product at http://publib.boulder.ibm.com/infocenter/cogic/v1r0m0/index.jsp.

System requirements

To review an up-to-date list of environments supported by the product, such as operating systems, patches, browsers, web servers, directory servers, database servers, and application servers, see www.ibm.com/support/docview.wss?uid=swg27019126.

Installing the product

For instructions on how to install the product, see the installation and configuration guides at http://publib.boulder.ibm.com/infocenter/cogic/v1r0m0/index.jsp.

Fix list

The fix list compiles the known issues that were addressed in this release. The fix list for your product name and version is available from the following website:

www.ibm.com/support/docview.wss?uid=swg27019175

Open APARs

You can track problems that are discovered and reported to IBM as a result of a product defect. These APARs (Authorized Program Analysis Reports) remain open until a fix is available.

A list of all open APARs is available from the following website:

www.ibm.com/support/search.wss?apar=only&tc=SS9RTN&sort=desc&word=aw&wfield=open

IBM Cognos Mobile Known Issues

At the time of publication, the following problems and limitations were known.

IBM Cognos Mobile Service Server Issues

This section contains known issues related to the IBM® Cognos® Mobile server.

At the time of publication, there were no known server issues in IBM® Cognos® Mobile. To check for open APARs, see "Open APARs" (p. 5).
IBM Cognos Mobile Service Client Issues

This section contains known issues related to the IBM® Cognos® Mobile client.

At the time of publication, there were no known client issues in IBM® Cognos® Mobile. To check for open APARs, see "Open APARs" (p. 5).

Deprecation Notices

This section contains deprecation notices for IBM® Cognos® Mobile.

Removed Features in IBM Cognos Mobile Version 10.1

The following features are not available in IBM® Cognos® Mobile version 10.1:

- Emailing reports. Users can no longer email desktop links to reports directly from IBM Cognos Mobile on a BlackBerry device or from the device email on a Microsoft® Windows® Mobile or Symbian device.

- Report versions. Users can no longer have several versions of a report on their mobile device. Each time a user runs a report or receives a scheduled report, it overwrites the older version.

- Viewing report details. Users can no longer access detailed information about a report, such as its size and location.

Deprecation of Support for Microsoft Windows Mobile and Symbian Mobile Devices

IBM® Cognos® Mobile version 10.1 is the last release that will support Microsoft® Windows® Mobile and Symbian mobile devices.
