For instructions on how to install IBM Cognos Express 10.1.0, see *Managing IBM Cognos Express* on the IBM Cognos Express 10.1.0 information center (<http://publib.boulder.ibm.com/infocenter/cx/v10r1m0/index.jsp>).

Fix list

The fix list (www.ibm.com/support/docview.wss?uid=swg27023790) compiles the known issues that were addressed in this release.

Known problems

Known problems are documented in the form of individual technotes and techdocs in the Support knowledge base. As problems are discovered and resolved, the IBM Support team updates the knowledge base. By searching the knowledge base, you can quickly find workarounds or solutions to problems. APARs (Authorized Program Analysis Reports) are discovered and reported to IBM as a result of a product defect. These APARs remain open until a fix is available.

The following links will help you find information about known problems:

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Any performance data contained herein was determined in a controlled environment. Therefore, the results obtained in other operating environments may vary significantly. Some measurements may have been made on development-level systems and there is no guarantee that these measurements will be the same on generally available systems. Furthermore, some measurements may have been estimated through extrapolation. Actual results may vary. Users of this document should verify the applicable data for their specific environment.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

If you are viewing this information softcopy, the photographs and color illustrations may not appear.
