IBM Cognos PowerPlay Client
Version 10.2.0

Release Notes
Note
Before using this information and the product it supports, read the information in "Notices" on page 3.

Product Information
This document applies to IBM Cognos Business Intelligence Version 10.2.0 and may also apply to subsequent releases. To check for newer versions of this document, visit the IBM Cognos Information Centers [http://publib.boulder.ibm.com/infocenter/cogic/v1r0m0/index.jsp].
IBM Cognos PowerPlay Client Release Notes

This document provides a list of known problems, useful topics, and links for working with IBM® Cognos® PowerPlay® Client, version 10.2.0.

Contents

- “Accessibility”
- “System requirements”
- “Installing IBM Cognos Business Intelligence 10.2.0”
- “Fix list”
- “Known problems”

Accessibility

Accessibility features help users who have a physical disability, such as restricted mobility or limited vision, to use information technology products. For information on these features, see the accessibility section in the documentation for each component.

IBM Cognos HTML documentation has accessibility features. PDF documents are supplemental and, as such, include no added accessibility features.

System requirements

Information about IBM Cognos Business Intelligence 10.2.0 supported environments is available on the web (http://www.ibm.com/support/docview.wss?uid=swg27027080). The list of supported environments includes information about, operating systems, patches, browsers, web servers, directory servers, database servers, and applications servers.

Installing IBM Cognos Business Intelligence 10.2.0

For instructions on how to install IBM Cognos Business Intelligence 10.2.0, see the Installation and Configuration Guides available at the Business Intelligence 10.2.0 Information Center (http://pic.dhe.ibm.com/infocenter/cbi/v10r2m0/index.jsp).

Fix list

The fix list compiles the known issues that were addressed in this release. For a list of the current fixes, go to the IBM Cognos Business Intelligence 10.2.0 Fix List (http://www.ibm.com/support/docview.wss?uid=swg27027081).

Known problems

Known problems are documented in the form of individual technotes in the Support knowledge base. As problems are discovered and resolved, the IBM Support team updates the knowledge base. By searching the knowledge base, you can quickly find workarounds or solutions to problems.

A list of all known technotes that are specific to IBM Cognos Business Intelligence 10.2.0 is available.
You can track problems that are discovered and reported to IBM as a result of a product defect. These APARs (Authorized Program Analysis Reports) remain open until a fix is available.

A list of all open APARs for IBM Cognos Business Intelligence is available.

You can view all technotes and APARs that have been created for the current version and for all previous versions. The most recent technotes and APARs are listed first.

A list of all technotes and APARs for IBM Cognos Business Intelligence is available.
Notices

This information was developed for products and services offered worldwide.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service. This document may describe products, services, or features that are not included in the Program or license entitlement that you have purchased.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing
IBM Corporation
North Castle Drive
Armonk, NY 10504-1785
U.S.A.

For license inquiries regarding double-byte (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

Intellectual Property Licensing
Legal and Intellectual Property Law
IBM Japan Ltd.
1623-14, Shimotsuruma, Yamato-shi
Kanagawa 242-8502 Japan

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law: INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM Web sites are provided for convenience only and do not in any manner serve as an endorsement of those Web sites. The materials at those Web sites are not part of the materials for this IBM product and use of those Web sites is at your own risk.

Ottawa, ON K1V 1B7
Canada

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Any performance data contained herein was determined in a controlled environment. Therefore, the results obtained in other operating environments may vary significantly. Some measurements may have been made on development-level systems and there is no guarantee that these measurements will be the same on generally available systems. Furthermore, some measurements may have been estimated through extrapolation. Actual results may vary. Users of this document should verify the applicable data for their specific environment.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

If you are viewing this information softcopy, the photographs and color illustrations may not appear.
