D8 SP4

What's new

- It is now possible to add additional information to be displayed in the synchronization panel, like the maturity for instance:

- BPA also supported on Windows 7

Closed issues

The Service Pack 4 fixes the following bugs:

Ref	Abstract
PMR 77743660706	Need of h files, documentation of API, all information and and elements in order to compile an application using the PDS9 APIs
PMR 64565660706	Enhancement to display an additional attribute (Maturity)

Known limitations

None.

D8 SP3

What's new

- .

Closed issues

- .

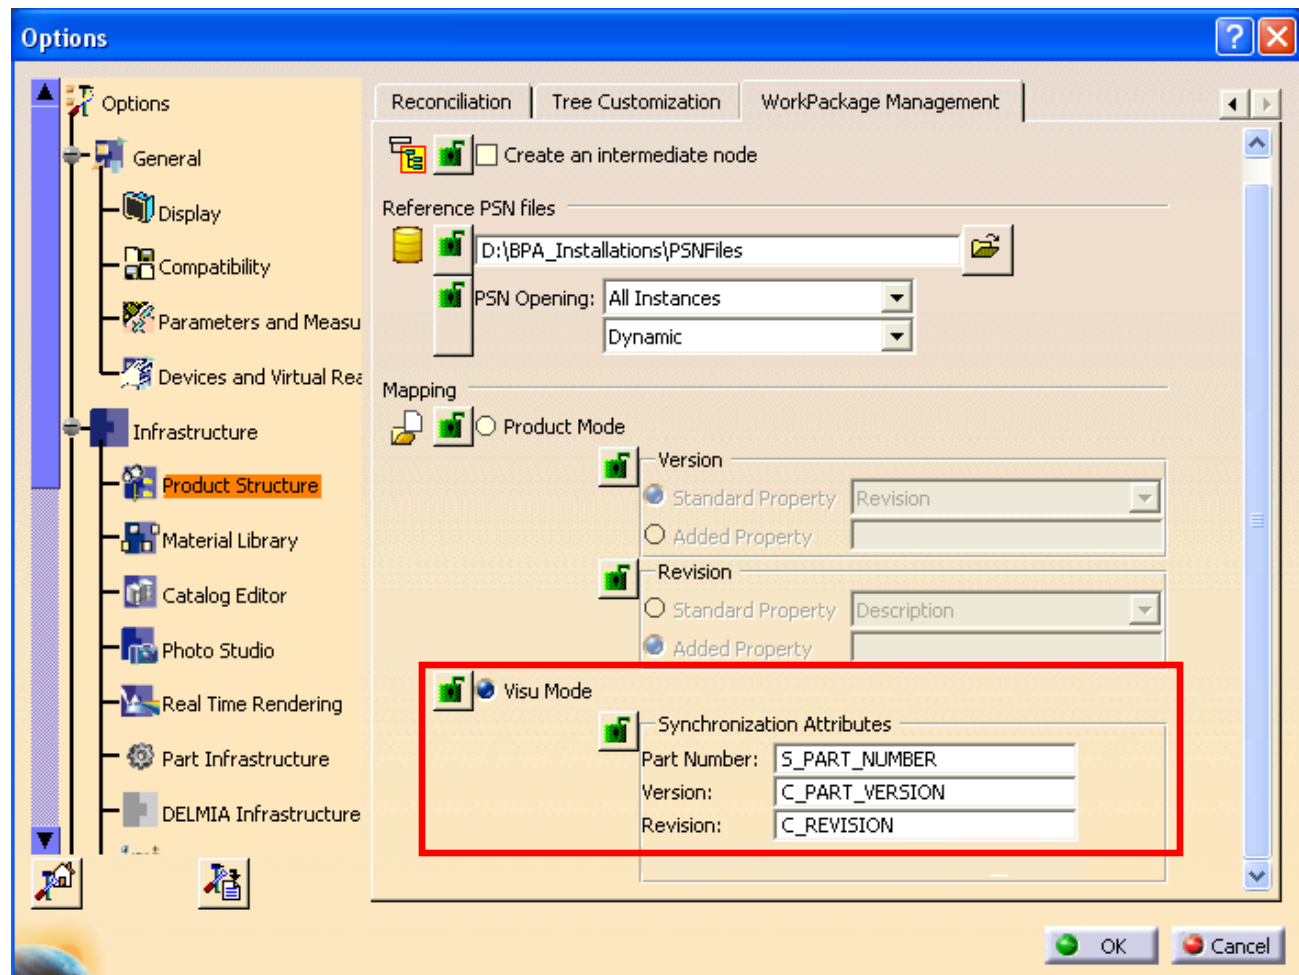

Known limitations

- .

D8 SP2

What's new

It is now possible to bypass the switch in Product Mode by defining the attributes used in VPM, through the Settings panel. This can greatly increase the performances of the synchronization.

Closed issues

The Service Pack 2 fixes the following bug:

Ref	Abstract
PMR 62067660706	Performance issue in Product Mode

Known limitations

D8 SP1

What's new

A new toolbar is now available. It gives access to 4 new PS9 functionalities:

- Update PSN file
- Flatten WorkPackage
- Move to Personalized Structure
- Update position

For details about these commands, please refer to the user's guide.
