# D8 SP6

## What's new

## Closed issues

## Known limitations

### 1. In Windows 32-bit and Windows 64-bit-

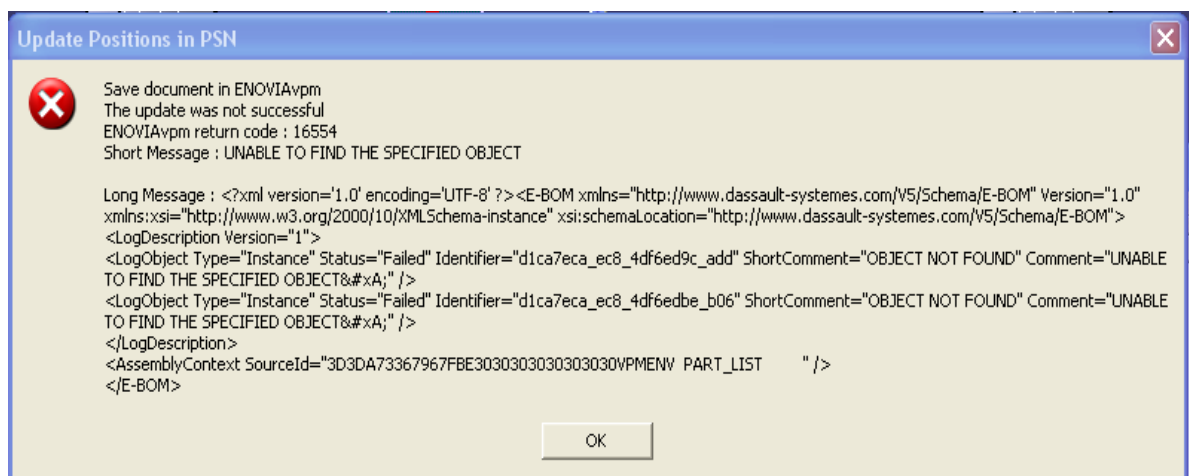

On trying to create second workpackage , immediately after the first workpackage is saved and PSN closed in VPM will lead to the following error message:

The alternative is to close the PSN product in CATIA , reload it again and then launch the “Create Workpackage” command.

### 2. In Windows 64-bit-

"Save Log" option in "Update Position In PSN" command saves the synchronization results, but at the end of the command also throws the following error message:

## ***D8 SP5***

***What's new***

.

***Closed issues***

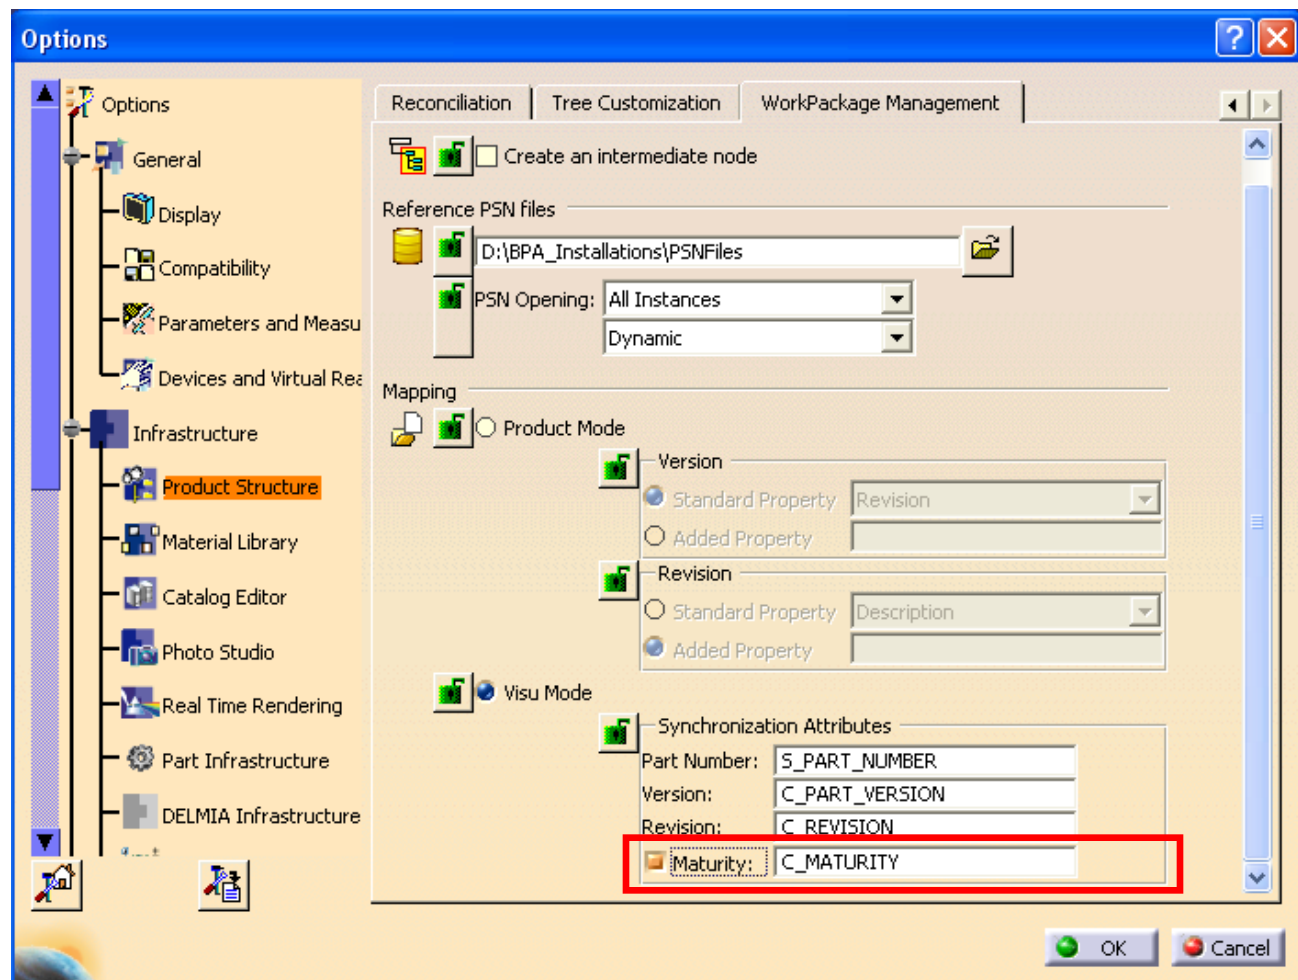

.

***Known limitations***

# D8 SP4

## What's new

It is now possible to add additional information to be displayed in the synchronization panel, like the maturity for instance:

## Closed issues

The Service Pack 4 fixes the following bugs:

Ref	Abstract
PMR 77743660706	Need of h files, documentation of API, all information and and elements in order to compile an application using the PDS9 APIs
PMR 64565660706	Enhancement to display an additional attribute (Maturity)

## Known limitations

None.

## ***D8 SP3***

### ***Known limitations***

- .

# D8 SP2

## What's new

It is now possible to bypass the switch in Product Mode by defining the attributes used in VPM, through the Settings panel. This can greatly increase the performances of the synchronization.

## Closed issues

The Service Pack 2 fixes the following bug:

Ref	Abstract
PMR 62067660706	Performance issue in Product Mode

## Known limitations

## ***D8 SP1***

---

### ***What's new***

A new toolbar is now available. It gives access to 4 new PS9 functionalities:

- Update PSN file
- Flatten WorkPackage
- Move to Personalized Structure
- Update position

For details about these commands, please refer to the user's guide.
