Introduction

This document describes the installation procedure for the Animation Importer BPA.

Related Documentation

- CATIA V5 – Installation Guide
- Virtools 4.0 – Installation Guide

Prerequisites for Animation Importer Installation

CATIA or DELMIA V5R19 installation and Virtools 4.0.0.94 are the main prerequisites for Animation Importer.

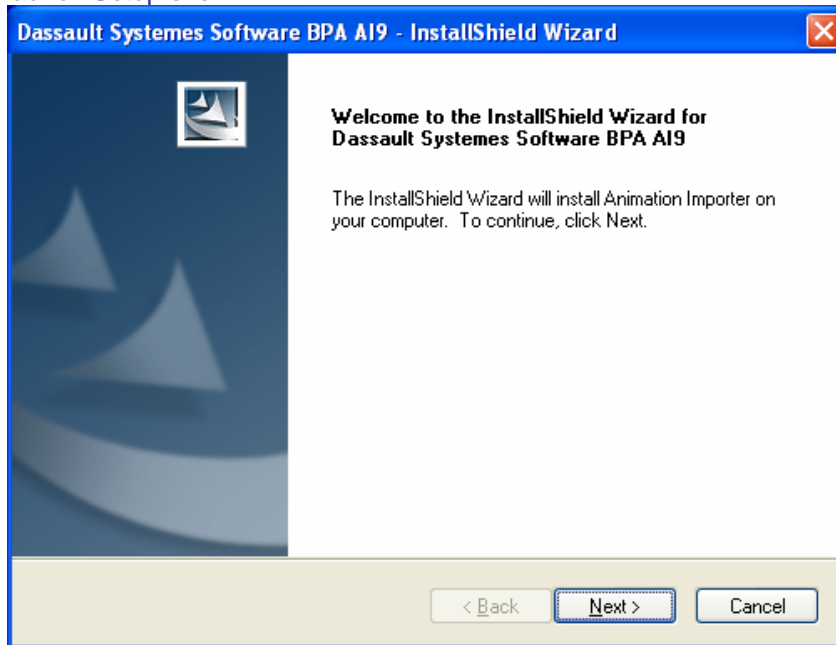

- Important: If you install Virtools 4.0 from low patch, you have to apply all the patches sequentially to Virtools 4.0.0.94

Animation Importer Installation

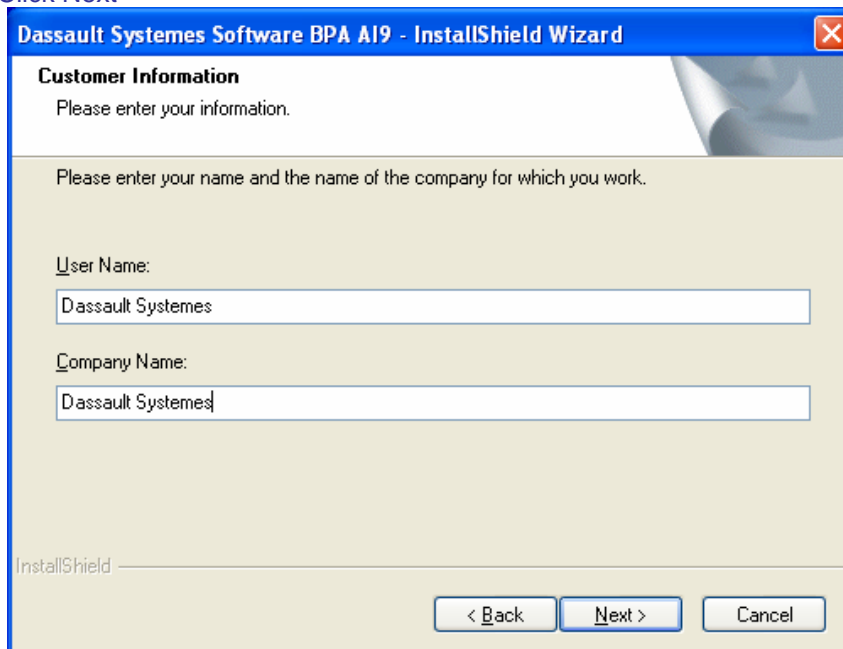

There are two modules in Animation Importer. The one is in CATIA or DELMIA side and other one is in Virtools side. The module in CATIA or DELMIA side does run on both Windows 32 bits and 64 bits operating systems and the module in Virtools side only runs on Windows32 bits.

The installation procedure is the same on both platform, and will be managed accordingly.

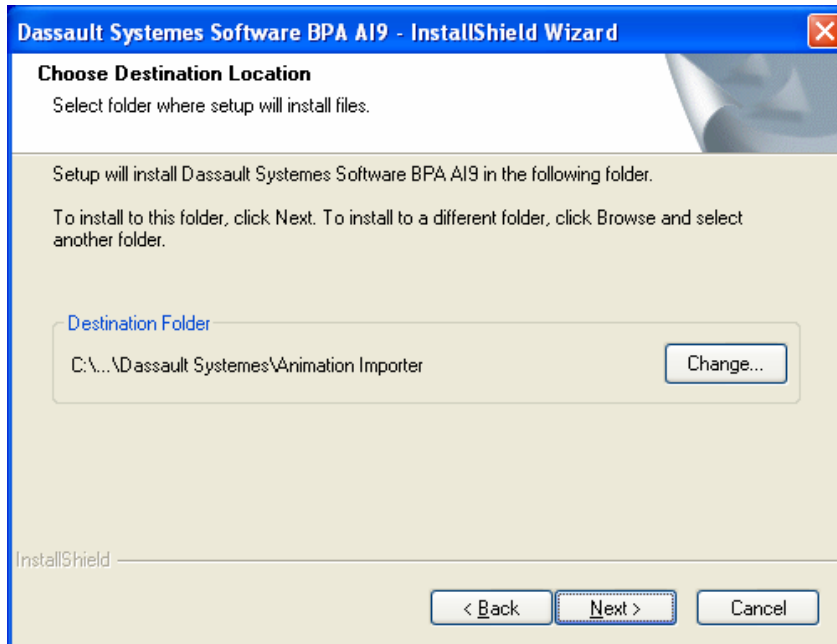

1. Launch Setup.exe

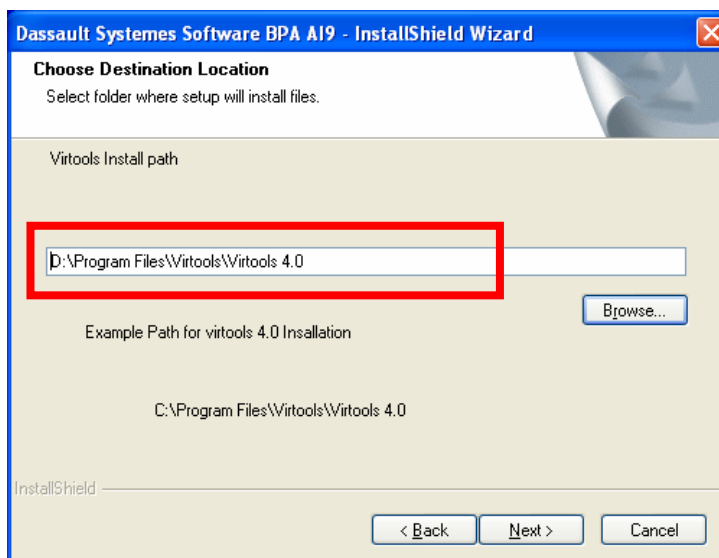

2. Click Next

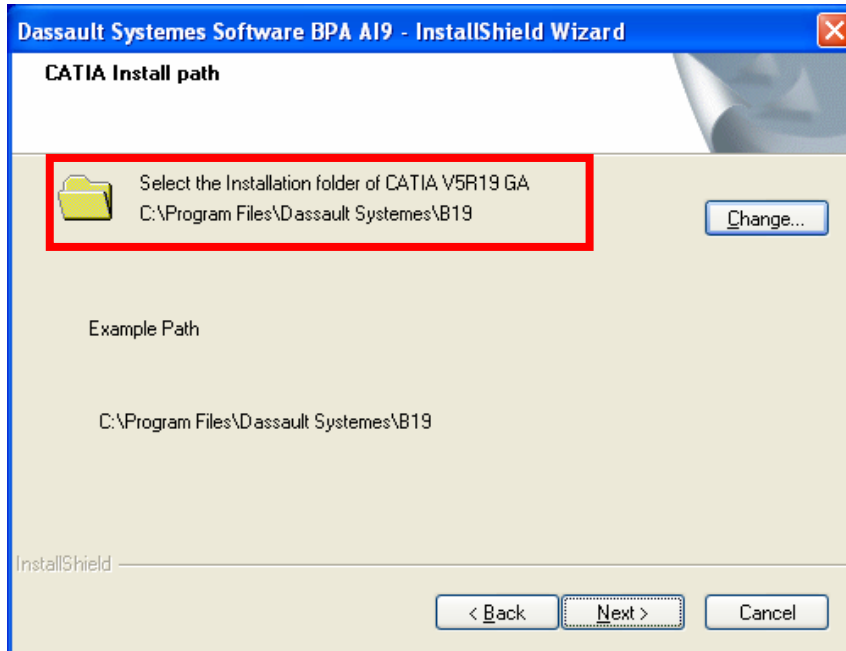

3. Fill Correct User Name and Company Name
4. Click Next
5. Choose Animation Importer code Location

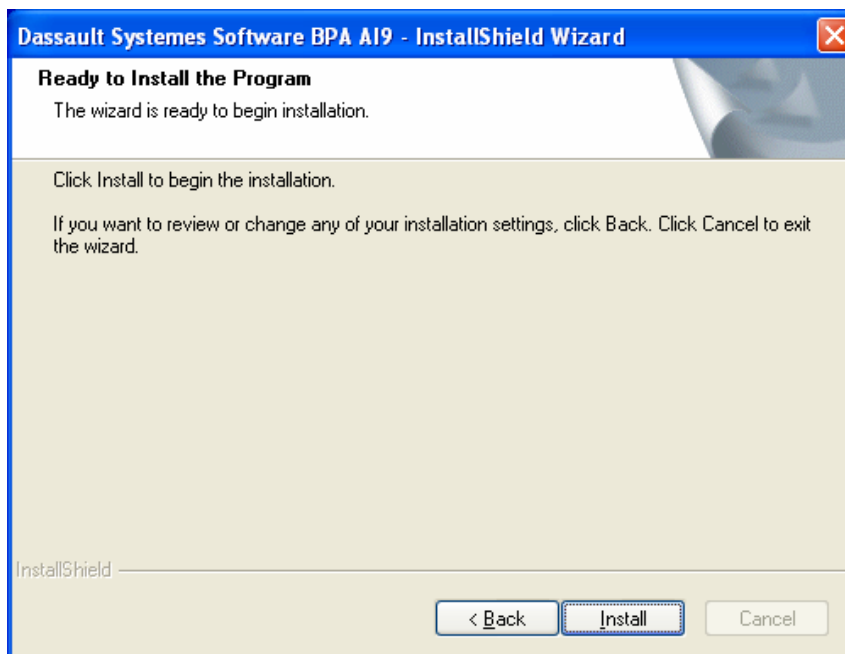

6. Click Next
7. Select Virtools 4.0 Installation Path

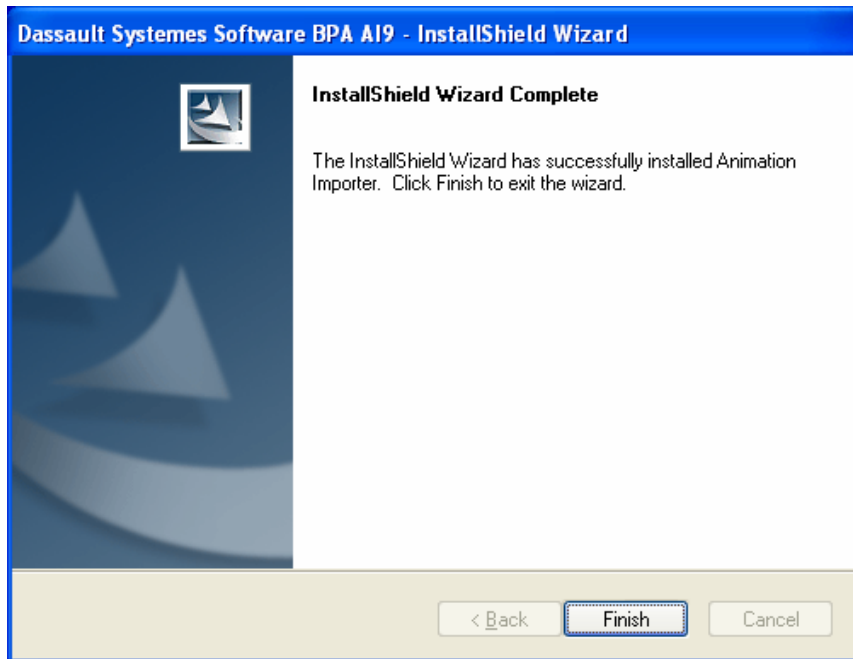

8. Select CATIA V5R19 Installation Path

9. Select Next

10. Select Install

11. Select Finish

Administrators also have a choice to install/uninstall the BPA through command prompt window

Commands options for msixec

- /i install
- /x uninstall
- /a admin installation.

The msixec can be used to run the installer in different modes like

- silent mode /q
- basic ui mode /qb
- full ui mode

Also msixec logs the progress of an installation which is useful to detect errors if any during installation

- Msixec [.msi file name] /!v [log file name]

Example:

```
msixec /i "D:\Installables\intel_a\Dassault Systemes Software BPA SL9.msi" INSTALLDIR="C:\Program Files\Dassault Systemes\Animation Importer" DASSAULT_SYSTEMES_BXX="D:\Program Files\Dassault Systemes\B19" VIRTOOLS_4.0="C:\Program Files\Virtools\Virtools 4.0" /!v C:\Log.txt /qb
```

Where in:

PROPERTY NAME	PROPERTY Value	Example
INSTALLDIR	The Installation Directory for the application	"C:\Program Files\Dassault Systemes\Animation Importer"
DASSAULT_SYSTEMES_BXX	The Installation Directory for the CATIA application (upto Dassault Systemes\B19)	"C:\Program Files\Dassault Systemes\B19"
VIRTOOLS_4.0	The Installation Directory for the Virtools 4.0 application (upto Virtools 4.0)	"C:\Program Files\Virtools\Virtools 4.0"

License Management

Animation Importer requires a license.
Versions 5.6 or higher need IBM LUM (License Use Management) application.

To ask a license, the following information must be provided:

- Product Name: This is the BPA trigram.
- License Type: Nodelock or concurrent.
- Number of License: 1 for Nodelock , >0 for Concurrent
- LUM targetID: Provide the target id (run i4target in a DOS window)
 - On Client side for Nodelock
 - On Server side for Concurrent

On receiving the license:

- For Nodelock type of license
 - Modify/ Create Nodelock file by inserting necessary information (VendorID, ProductPassword) - See Appendix A
- For Concurrent type of license
 - Enroll the license on the LUM server - See Appendix B

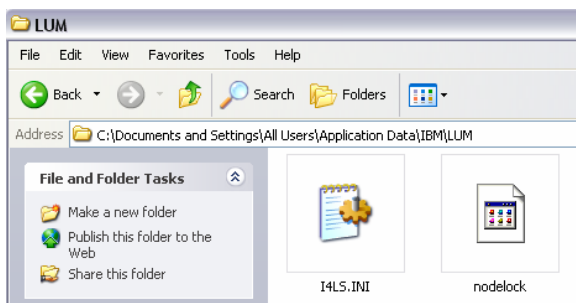

Appendix A : Creating a Nodelock file

Nodelock file : how to proceed

You should input yourself the parameters of your License into the nodelock file (create it if doesn't exist)

- This file is located in C:\Documents and Settings\All Users\Application Data\IBM\LUM\nodelock
- You should extract from the .lic file the following informations :
 - VendorID (looks like an UUID)
 - ProductPassword (a crypted key)
 - ProductAnnotation (should be unset)
 - ProductVersion (should be set to 1)
- And insert them in nodelock file by respecting the order
 - # comment : put your BPA trigram and its range date
 - vendorID ProductPassword ProductAnnotation ProductVersion

Example:

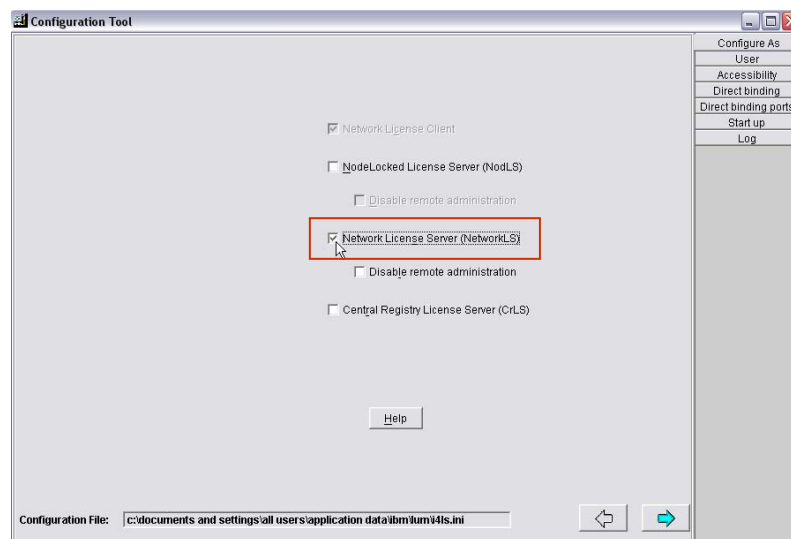

```
# CP9 from 15-Jul-08 to 14-Jul-09
c6c8ef44bcb7.4a.74.95.13.1f.00.00.00 r8ezikjzgsvk9fzf7fe3p2gn3eaa "" "1"
```

Appendix B : Enrolling a Concurrent license on the Network license server

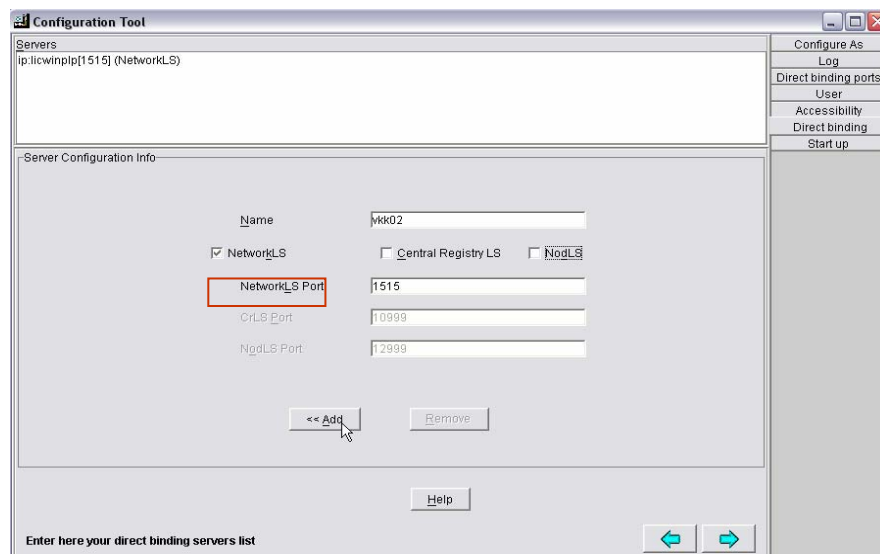

Setting up the Network License server:

Start > Programs> License Use Runtime > Configuration tool

- Stop the service if needed using the Service Manager Tool.
- Ensure that the option for Network License Server is selected

- Switch to the Direct Binding tab.
- In the Name field enter the machine name
- Check the box for NetworkLS and click on Add button

- Close the Configuration Tool window and validate accepting the changes

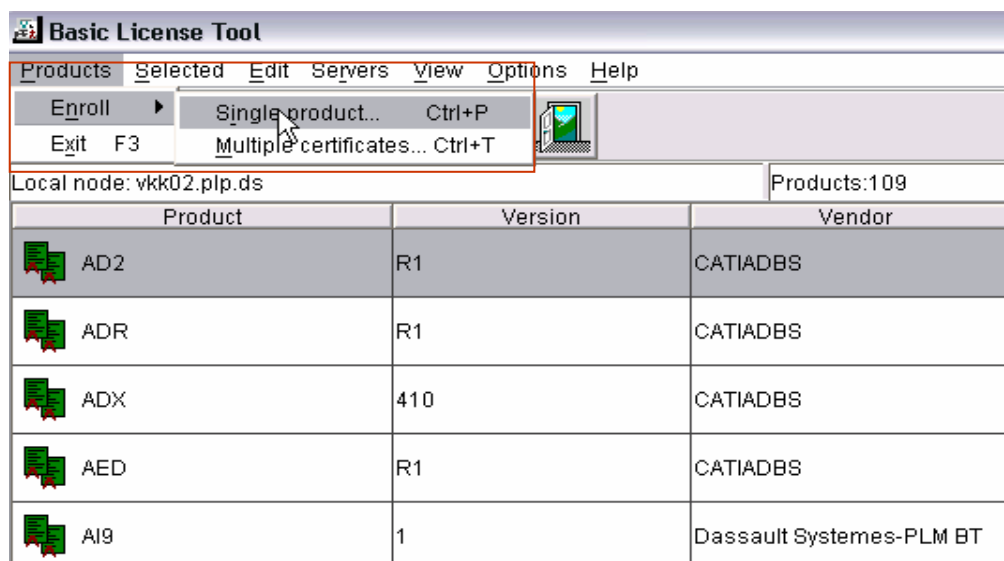

- Pass the message to restart the service (if previously it was stopped)

Enrolling the Concurrent License

Start > Programs> License Use Runtime > Basic License Tool

- Select Product / Enroll/
 - Choose Single or Multiple depending on whether you want to enroll a single or multiple licenses at a time.

- Click on Import button

The image shows a Windows-style dialog box titled "Enroll Product". It contains several input fields organized into sections: "Product" with "Product Name" and "Product Version"; "License" with "License Password", "License Serial Number", and "License Annotation"; "Vendor" with "Vendor Name" (a dropdown menu showing "CATIADBS"), "Vendor ID" (containing a long alphanumeric string), and "Vendor Password" (containing "8fttqari8de"); and a "Server name" dropdown menu showing "ip.LICWIN1PLP". At the bottom, there are four buttons: "OK", "Import..." (which is highlighted with a red rectangle and a mouse cursor), "Cancel", and "Help".

Please refer to the DS BPA License Management Documentation.

Un-installing Animation Importer application

Un-installation must be run:

From the Control Panel -> Add or Remove Programs

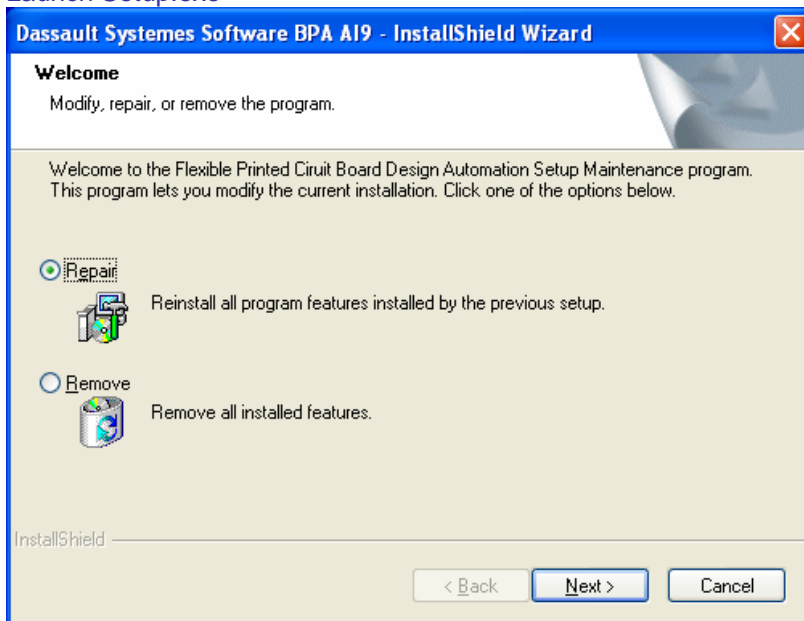

1. Select the *Dassault Systèmes Software BPA AI9* application, and click on “Remove”

2. AI9 BPA is un-installed.

From the AI9 installer

1. Launch Setup.exe

2. Select Remove and then Next
3. AI9 BPA is un-installed.

Troubleshooting

CATIA V5 installation not complete

If, at step 8.0 of the installation procedure, the following error message appears:

Please make sure that you defined the appropriate path for the CATIA V5R19 installation in the following window:
