These contracts allow all public entities both to maximize the State’s purchasing power by aggregating their requirements and to benefit from increased efficiencies in the acquisition process. Procurement Services’ cost for this central purchasing activity is offset by an administrative fee which each contractor includes in its contract pricing (though not separately itemized or invoiced) and is paid to the vendor by each participating public entity. Payment for each reporting period is due no later than 60 days after of the month immediately following the end of the reporting period (Example: payment for the reporting period ending March 31 is due no later than May 30). If the amount due for a reporting period is less than $10.00, no payment is required. Section 11-35-310(35) of the South Carolina Code of Laws reads as follows: "'Term contract' means contracts established by the chief procurement officer for specific supplies, services, or information technology for a specified time and for which it is mandatory that all governmental bodies procure their requirements during its term. As provided in the solicitation, if a public procurement unit is offered the same supplies, services, or information technology at a price that is at least ten percent less than the term contract price, it may purchase from the vendor offering the lower price after first offering the vendor holding the term contract the option to meet the lower price. The solicitation used to establish the term contract must specify contract terms applicable to a purchase from the vendor offering the lower price. If the vendor holding the term contract meets the lower price, then the governmental body shall purchase from the contract vendor. All decisions to purchase from the vendor offering the lower price must be documented by the procurement officer in sufficient detail to satisfy the requirements of an external audit. A term contract may be a multi term contract as provided in Section 11-35-2030."
