

# HOW DOES OMAHA STEAKS PLAY TO WIN?

**@server**

**Omaha Steaks' online sales have soared 150%** over the last 3 years. And with 20% of their sales now conducted over the Web, they clearly required a highly available server. Since deployment, their IBM **@server iSeries™** has been rock solid (2 years, no unplanned downtime). And that's a job well done. For a complimentary consultation with an iSeries specialist, visit **ibm.com/eserver/omaha**, or call **1 800 426-7777** and mention priority code 102AG006.

*@business is the game. Play to win.™*
