

# STOP BUYING SERVERS.

Farewell complexity. Good-bye complications. Hasta la vista hassles. Presenting a smarter way to grow your IT capabilities. Buy a server that can grow along with you. Like IBM eServer™ xSeries® systems powered by Intel® Xeon™ processors. Select models can scale up (simply) from 1 to 16 way and, with optional VMware® software, can handle not just one, but multiple Windows® or Linux applications at once. That's the flexibility the on demand world demands. To find out more, visit [ibm.com/eserver/advantage](http://ibm.com/eserver/advantage)

*5 reasons more and more businesses are turning to IBM eServer xSeries systems.*

<i>Scale 1-16 way with select models. Pay as you grow.</i>	<i>IBM Director systems management.</i>	<i>Linux-ready through the entire line.</i>	<i>Mainframe-inspired technologies.</i>	<i>24/7/365 optional onsite hardware support.<sup>1</sup></i>
------------------------------------------------------------	-----------------------------------------	---------------------------------------------	-----------------------------------------	---------------------------------------------------------------

IBM eServer xSeries systems are powered by Intel Xeon processors. (And they could help stop you from buying server after server after server.)
