Notice to Government Employees

IBM conducts marketing presentations, executive briefings, product exhibitions, seminars and other sessions to familiarize customers with IBM solutions to information processing problems. In accordance with established IBM practices, these sessions are provided at no charge.

Some government agencies permit acceptance of this training by employees; other agencies may not. You should ascertain whether your agency's standards of conduct regulations permit you to attend this education or training session, as it is not IBM's intent or desire that either you, your organization, or IBM violate any statutes or regulations.

Notice to Government Employees...

Under IBM's established business practices, the fair market value for nonbillable IBM education or training is zero, as it is normally provided to commercial customers, government customers, and potential customers on a no-charge basis.

The offer of IBM training or education made in conjunction with this notice is void where prohibited by federal, state, or local government stature or regulation.
