

z/VSE Status

IBM partnership with 21st Century Software

IBM has licensed the source code of IBM z/VSE V6.2 and most of the stack components to 21st Century Software.

What IBM z/VSE customers should consider

IBM strongly suggests that customers who need a serviceable environment plan to move to an alternative solution. For customers wishing to remain on a supported VSE platform, 21st Century Software offers derivative VSE products.

z/VSE 6.2 End-Of-Service effective date is 2023/09/30, see [announcement letter](#) from 2022/08/02.

Please also see the [z/VSE 6.2 End-of-Service Information](#).
