

Sample test:

The sample test is designed to give the candidate an idea of the content and format of the questions that will be on the certification exam. Performance on the sample test is NOT an indicator of performance on the certification exam. This should not be considered an assessment tool.

(Answer key at the end)

SAMPLE QUESTIONS

1. A prospective customer already has a vendor-provided asset maintenance solution. This solution provides basic condition monitoring. During the technical presentation of PMQ, it is important to show the broad-based approach that PMQ provides in its maintenance content.

Which content would you emphasize for this customer?

- A. enhanced PMQ installation features
 - B. Statistical Process Control reports, including x-bar, r-bar charts, and histograms
 - C. Quality Early Warning (QEWS) algorithm and inspection quality during Production
 - D. statistical algorithm that combines text, sensor, maintenance, and wear data
2. Which two actions are carried out by the Java API of the PMQ Analytic Foundation? (Choose two.)
- A. Connect to data sources.
 - B. Write event data to the analytic data store.
 - C. Write data back to external systems.
 - D. Aggregate events.
3. What are two examples where PMQ would provide predictive maintenance? (Choose two.)
- A. Telephone poles
 - B. Jet engines
 - C. Next best offer
 - D. Marketing campaigns
4. What is used to define the output of a service?
- A. service definition
 - B. profile adapter
 - C. observation selector
 - D. calculation invocation
5. Which two steps are performed with "Message Flow to Call to SPSS Service"? (Choose two.)

- A. calling SPSS Scoring and Decision Management
 - B. recording of Scores and Recommendations
 - C. creating a work order in Maximo if recommended to do so
 - D. aggregating a Meta Data event
6. You are responsible for maintenance but lack adequate maintenance capacity. Which two PMQ templates would be used to make optimized decisions with this constraint? (Choose two.)
- A. optimize model template
 - B. prioritize application template
 - C. combine application template
 - D. optimize customer interaction template

ANSWERS:

- 1 - D
- 2 - B & D
- 3 - A & B
- 4 - A
- 5 - A & C
- 6 - A & B
