Delivers large format printing with a small footprint at an outstanding value

IBM Infoprint 1226

Highlights

■ **Supports up to A3 and Ledger size paper for output flexibility**

■ **Delivers a fast first-page-out, minimizing user wait time**

■ **Offers an IPDS option for robust print management**

■ **Provides a broad range of networking capabilities including wireless Ethernet**

Meeting large-format printing needs
The value-priced IBM Infoprint® 1226 is a monochrome laser printer that supports large-format applications. Offering high-performance printing at a speed of up to 26 pages-per-minute (ppm), the Infoprint 1226 has an impressive first-page-out time of 8 seconds. It can print oversized documents at 1200 image quality, making it ideal for CAD/CAM, desktop publishing and graphic arts applications, as well as spreadsheets, retail store signage, cartography, and more.
Enabling robust print management
With the optional IBM Intelligent Printer Data Stream™ (IPDS™) capability, the Infoprint 1226 facilitates robust print management. IPDS interprets data from applications to identify what data has or has not printed, even if an interruption occurs, for reliable delivery and better error handling and recovery.

Providing networking flexibility
The Infoprint 1226 provides connectivity options which include Token Ring, Fast Ethernet, and wireless Ethernet, as well as support for Bluetooth wireless technology.

New wireless printing solutions for the Infoprint 1226 are designed to meet the needs of businesses large and small. Bluetooth technology lets you print to the Infoprint 1226 from PCs, handheld devices and mobile phones, and offers built-in authentication and encryption technology for secure data transfer. Wireless Ethernet can enable wireless connectivity to local area network (LAN) resources including servers, printers, PCs and laptops.

Maximum speed (up to)	26 ppm
First-page-out time	8 seconds
Technology/processor	Monochrome laser/300 MHZ
Maximum monthly usage[1]	65,000 pages
Print resolution	300 dpi, 600 dpi and 1200 image quality
Models	Base; Network w/ extra tray (tn)
Memory (std/max)	16/272 MB (base); 32/288 MB (tn)
Paper handling	
Standard input capacity	One 250 sheet drawer with 150-sheet auxiliary tray (base)
	Two 250-sheet drawers with 150-sheet auxiliary tray (tn)
Maximum input capacity	Up to 1,400 sheets
Standard output capacity	250 sheets
PC interfaces (standard)	
Base	USB port, bidirectional parallel port
Network	USB port, Ethernet 10/100 BaseTX
Printer attachments (optional)	
Internal	Ethernet 10/100 BaseTX; Ethernet 10 BaseT/2; Token Ring; Fiberoptic SC; Fiberoptic MTRJ; Twinax/Coax adapter for SCS; Tri-port adapter (infrared, serial, Mac); Serial/Parallel interface card
External	Ethernet 10/100 BaseTX—1 port or 3 port; Ethernet 10/100 BaseTX and 10Base2—1 port; Token Ring—3 port; Infrared adapter; Serial adapter Bluetooth wireless adapter[2] 802.11b Wireless adapter[2]
Application solutions	IPDS, ImageQuick, Optra Forms and Bar Code Card
Physical characteristics	Base: 18.07" (W) x 16.93" (D) x 12.2" (H)
Weight	Base: 42 lbs
Toner yield[3]	12,000-page high-yield toner cartridge
Cost-saving and environmental features	IBM return program print cartridges; high-yield print cartridges; up to 30% toner savings; optional duplex
Warranty	One year, depot exchange. Upgrades are available. For more information, visit **ibm.com**/support/warranties/us

[1] To maximize asset life, IBM does not recommend printing this monthly maximum on a consistent basis.
[2] Available through a third party vendor
[3] 6,000-page yield cartridge ships with printer. Assumes 5% toner coverage per page. Toner yields are provided for planning purposes and are not a guarantee of minimum life; actual yields may vary.
