# Infoprint® DBCS Font Downloader Read Me

---

## System requirements

IBM® Infoprint Double-Byte Character Set (DBCS) Font Downloader has the following system requirements:

- Windows NT® 4 Workstation Service Pack 6 or later, or Windows® 2000 Professional
- 64MB (1 MB equals approximately 1 000 000 bytes) of RAM
- 25 MB of free hard disk space
- Ethernet Network adapter

---

## Installation

To install Infoprint DBCS Font Downloader:

1. Insert the Infoprint DCBS Font Downloader CD-ROM into the drive. The installation program starts automatically.

2. Follow the instructions on the installation screens.

During the installation, you must identify your Ethernet connection.

- On Windows NT, if you have more than one network adapter, the installation program prompts you to select one. Select the network adapter that supports Ethernet.
  - On Windows 2000, the installation program displays the Control Panel. A message box instructs you to open the **Properties** of your Ethernet connection. To do this:
    - a. On the Control Panel, select **Network and Dial-up Connections**.
    - b. Double-click the **Name** field of your Ethernet connection to open the **Status** dialog.
    - c. Click **Properties**.
3. After the installation program completes, shut down and restart the computer. When you restart, the **Infoprint DBCS Font Downloader setup** dialog is automatically displayed.
  4. Follow the instructions in the *Infoprint DBCS Font Downloader User's Guide* to configure Infoprint DBCS Font Downloader.
