B4-envelope	jis-b4-colored	na-10x15-envelope
B5-colored	jis-b4-white	quarto
B5-envelope	jis-b5-colored	8x10
B6	jis-b5-white	

Arguments

The argument value identifies the server to which the utility applies.

Valid argument values for the **pdcrmed** utility are:

ServerName

Specifies the name of the server on which to create the medium objects. You must specify the name.

Example

To create the commonly used medium objects on a server with the name `srv1`, enter:

```
pdcrmed srv1
```
