Agenda – Monday, 27 October 2008

General Sessions	
12:00-12:30	GS01 – IBM and GSE: Welcome and Vendor Introduction <i>Dr. Klaus Goebel, IBM Research & Development Lab Boeblingen; Peter Groth, German GSE Technical Coordinator</i>
12:30-13:30	GS02 – What is new for z/VSE, z/VM and Linux on System z <i>Dr. Klaus Goebel, IBM Research & Development Lab Boeblingen</i>
13:45-14:30	GS03 – A Closer Look at System z Servers for Midrange Customer <i>Klaus-Dieter Mueller, IBM Research & Development Lab Boeblingen</i>
14:30	Coffee Break
15:00-15:45	GS04 – Business Intelligence with Cognos on Linux on System z (incl. Demo) <i>Andreas Plach, IBM Research & Development Lab Boeblingen</i>
16:00-16:45	GS05 – The Business Value of System z Virtualization <i>Reed Mullen, IBM Development Lab Endicott, NY</i>
17:00-18:30	GS06 – Software Solutions for z/VM, z/VSE and Linux on System z <i>Wilhelm Mild, IBM Research & Development Lab Boeblingen</i>

Agenda – Tuesday, 28 October 2008

General Sessions	
09:00-09:45	GS10 – Linux on z/VM: Clustering and High Availability (incl. Demo) <i>Customer presentation: Armin Arbinger, ZIVIT</i>
10:00-10:45	GS11 – Your Linux is Mainframe ready <i>Vendor presentation: Jens-Gero Boehm, Ralf Dannert, Novell</i>
10:45	Coffee Break
11:15-12:00	GS12 – Managing Linux on z/VM Performance with ESALPS <i>Vendor presentation: Barton Robinson, Velocity Software</i>
12:15-13:00	GS13 – Managing and tuning your VSE TCP/IP Systems – Case Studies <i>Vendor presentation: Eric Vaughan, illustro Systems International</i>
13:00	Lunch
Forum for International Audience	
14:00-14:45	GS15 – z/VSE Version 4.2 <i>Ingolf Salm, IBM Research & Development Lab Boeblingen</i>
15:00-15:45	GS16 – z/VM Version 5.4 <i>Reed Mullen, IBM Development Lab Endicott, NY</i>
15:45	Coffee Break
16:15-17:00	GS17 – System Resiliency today <i>Wilhelm Mild, IBM Research & Development Lab Boeblingen</i>
17:15-18:00	GS18 – Integrating z/VSE into an Identity Management System <i>Ingo Franzki, IBM Research & Development Lab Boeblingen</i>

Agenda – Tuesday, 28 October 2008 – German WG

	Forum for z/VM and Linux, German Working Group
14:00-14:45	SD20 – CMM / CMMA Implementation und Linux CPU Hotplug <i>Hans-Joachim Picht, IBM Research & Development Lab Boeblingen</i>
15:00-15:45	SD21 – Linux on System z in Produktion mit z10 <i>Kundenvortrag: Oliver Röthinger, Sparda Datenverarbeitung</i>
15:45	Coffee Break
16:15-17:00	SD22 – DB2 LUW Use of Trusted Context für VM/VSE-Anwender <i>Günter Weber, IBM Sales & Distribution Frankfurt</i>
17:15-18:00	SD23 – z/VM-Linux Erfahrungsaustausch und Requirements <i>Edgar Sontowski, LBV NRW; Dr. Manfred Gnirss, IBM Research & Development Lab Boeblingen</i>
	Forum for z/VSE, German Working Group
14:00-14:45	SD10 – Integration von z/VSE in ein Identity Management System <i>Ingo Franzki, IBM Research & Development Lab Boeblingen</i>
15:00-15:45	SD11 – Erfahrungsbericht Tape Virtualisierung im z/VM und z/VSE Umfeld <i>Kundenvortrag: Harald Siegle, Voith IT Solutions</i>
15:45	Coffee Break
16:15-17:00	SD12 – z/VSE Version 4.2 <i>Ingolf Salm, IBM Research & Development Lab Boeblingen</i>
17:15-18:00	SD13 – System-Modernisierung mit DB2 auf Linux on System z bei der Wessels+Müller AG <i>Torsten Röber, IBM Global Technology Services Mainz</i>

Agenda – Wednesday, 29 October 2008 - Morning

	Forum for International Audience
09:00-09:45	GS19 – Hierarchical Data in a relational Robe Customer presentation: Andreas Stempel, himolla Polstermöbel; Peter Horbach, B.O.S.
10:00-10:45	GS20 – Lotus Domino on Linux for System z <i>Maik Weber, IBM Research & Development Lab Boeblingen</i>
	Forum for z/VM and Linux, German Working Group
09:00-09:45	SD24 – Synergieeffekte z/OS und Linux on System z in Produktion <i>Kundenvortrag: Bernd Daubner, IZB München</i>
10:00-10:45	SD25 – Performance Update für Linux on System z10 – Hints & Tips <i>Hans-Joachim Picht, IBM Research & Development Lab Boeblingen</i>
	Forum for z/VSE, German Working Group
09:00-09:45	SD14 – z/VSE und CICS: Hints & Tips <i>Heinz Peter Maassen, Lattwein; Dagmar Kruse, IBM Sales and Distribution München</i>
10:00-10:45	SD15 – z/VSE / CICS / DB2: Erfahrungsaustausch und Requirements <i>Moderation: Lothar Stein, BRUNATA Wärmemessergesellschaft; Heinz Peter Maassen, Lattwein</i>
10:45	Coffee Break

Agenda – Wednesday, 29 October 2008 – Afternoon

General Sessions	
11:30-12:15	GS22 – Storage Technology Update <i>Dr. Axel Koester, IBM Executive Briefing Center Mainz</i>
12:30-13:15	GS23 – A brand-new Mainframe User <i>Customer presentation: Ernst Bauer, EFiS AG; Winfried Münch, PROFi Engineering Systems</i>
13:30-14:15	GS24 – OpenSolaris with z/VM <i>Dr. David Boyes, Sine Nomine Associates</i>
14:15-14:30	Closing Session - Wrap-up, Plans for the next Conference, Drawing <i>Dr. Klaus Goebel, IBM Research & Development Lab Boeblingen; Peter Groth, German GSE Technical Coordinator; Lothar Stein, German GSE Working Group z/VSE Chairman</i>
14:30	Lunch

Optional

- **Velocity Software: z/VM-Linux Performance Management Workshop**
- **IBM: European z/VSE Vendor Council**

It's Business that Matters

2nd European IBM / GSE Conference for z/VSE, z/VM and Linux on System z

Peter Groth
German GSE Technical Coordinator

Summary

- IBM and its partners are heavily investing in System z
- Customers around the world are growing with System z
- With a current z/VM, z/VSE and/or Linux on System z, you are well positioned for the future

z can do *IT all*
