Agenda - Part 1

Linux for S/390

-
- **Background**
 - **Attributes**
 - **Why Linux on S/390 ?**
 - **System Structure**
 - **System Requirements**
 - **Platform Support**
 - **Middleware / Applications / Tools**
 - **Summary**
 - **Linux for S/390 on the Web**

IBM @ business servers. Technology. Innovation. Magic.

Background

Linux for S/390

- **What is Linux ?**
 - ▶ A popular UNIX system, developed by Linus Torvalds in 1991
 - ▶ Portable, with support for numerous hardware platforms
 - ▶ Available in source code, under GNU General Public License (GNU GPL)
 - ▶ A very stable operating system, developed and tested by 1000s of programmers world wide
 - ▶ Fast reaction to market requirements
 - ▶ Lots of different distributors, like Red Hat, SuSE, Caldera, Turbo Linux, Debian, and many others

IBM @ business servers. Technology. Innovation. Magic.

Background

Linux for S/390

- **More facts about Linux ...**
 - ▶ The number of Linux users grew from about 1,000 in 1992 to about 9 million last year, according to the Tower Group.
 - ▶ Linux is the fastest growing server operating system, growing at 166% last year, according to IDC.
 - ▶ Netcraft estimates 58% of Web Servers Run Open Source Operating Systems
 - ▶ IBM supports the Linux Platform in response to customer demand

IBM @ business servers. Technology. Innovation. Magic.

Background (cont.)

Linux for S/390

- **Linux for S/390**

- ▶ The project was initiated by a small development team in the IBM development laboratory in Böblingen/Germany
- ▶ Open source in the internet 12/1999 under GNU GPL
 - first refresh 02/2000
 - second refresh 05/2000
 - permanent support for the open source community

IBM @ business servers. Technology. Innovation. Magic.

Background (cont.)

Linux for S/390

- **Linux for S/390**

- ▶ The source packages adapted to S/390 includes
 - kernel 2.2.13 (12/99) / 2.2.14 (2/00) / 2.2.15 (5/00)
 - gcc 2.95.1 (12/99) / 2.95.2 (5/00)
 - gdb 4.18
 - binutils 2.9.1
 - glibc 2.12
 - strace 3.1.0.1
- ▶ Early users contributing press articles on Linux for S/390
 - Scott Courtney - LinuxToday - "S/390: The Linux Dream Machine"

IBM @ business servers. Technology. Innovation. Magic.

Background (cont.)

Linux for S/390

- **Base Assumptions**

- ▶ **Linux is Linux**

- only adaptations required to match S/390 architecture
- no modifications at the common code
- Linux system structure remains untouched

- ▶ **S/390 is S/390**

- no adaptation layer required to run Linux
- the S/390 architecture is sufficient to run Linux

➔ **Combine the strengths of Linux and S/390**

➔ **don't try to reinvent a S/390 specific Linux**

IBM @ business servers. Technology. Innovation. Magic.

Background (cont.)

Linux for S/390

- **Proof of Concept**

- ▶ **More than 400 Linux packages have been "ported"**

- Apache, Samba, Xlib, Gimp, Gnome, Regina (REXX), THE (Xedit), (X)Emacs, Perl, OpenLDAP, OpenSSL, IMAP, Sendmail, Bind, Bochs, and many others more ...

➔ **Usually the porting "effort" was just a recompile only !**

IBM @ business servers. Technology. Innovation. Magic.

Attributes

Linux for S/390

- Linux for S/390 is a true Linux port
 - ▶ No API emulation layer on OS/390
 - ▶ Fully ASCII based
 - ▶ IEEE floating point support
- Runs on CMOS processors G2 or more recent
 - ▶ P/390, R/390
 - ▶ Integrated Server
 - ▶ Multiprise 2000 / 3000
 - ▶ 9672 Rx2 +

IBM @ business servers. Technology. Innovation. Magic.

Attributes (cont.)

Linux for S/390

- S/390 system environments
 - ▶ VM guest
 - ▶ Logical Partition (LPAR)
 - ▶ Native
- IPL / boot support
 - ▶ VM reader
 - ▶ Tape, including emulated tapes (Optical Media Attach)
 - ▶ Disk (ECKD)
 - ▶ HMC/SE CD-ROM IPL support * new * with MCL upgrade

IBM @ business servers. Technology. Innovation. Magic.

Attributes (cont.)

Linux for S/390

- **Multiprocessing support**
 - ▶ Hardware : 12 way
 - ▶ VM guest : 32 way

IBM @ business servers. Technology. Innovation. Magic.

Why Linux on S/390

Linux for S/390

- **Applications**
 - ▶ Large selection
 - ▶ Rapid deployment
- **Skills**
 - ▶ Large numbers of highly skilled programmers familiar with Linux
 - ▶ Strong interest in colleges and universities
- **Vendor enthusiasm**
 - ▶ Major ISV / USV efforts for Linux
- **Implementor enthusiasm**
 - ▶ emerging interest in large datacenters

IBM @ business servers. Technology. Innovation. Magic.

Why Linux on S/390 **Linux for S/390**

- **Reliability**

- ▶ The most reliable hardware platform available. Period.
- ▶ Over 35 years of constant improvements

- **Scalability**

- ▶ 15 Linux images possible on native hardware
- ▶ Virtually unlimited Linux images possible with VM/ESA

- **Manageability**

- ▶ Centralized Linux systems easier to manage / duplicate
- ▶ Use management functions from S/390 operating systems for Linux (e.g. backup, autostart, etc.)
- ▶ Simplified management - One server versus many

IBM @ business servers. Technology. Innovation. Magic.

Linux Scenarios

Linux for S/390

- ▶ Single application per server
- ▶ Separate/partitioned data bases
- ▶ Complex system management
- ▶ Complex to integrate applications

- ▶ Support for diverse work loads
- ▶ Multiple applications per server
- ▶ Databases shared with integrity
- ▶ Less complex system management
- ▶ Interoperability and integration between applications

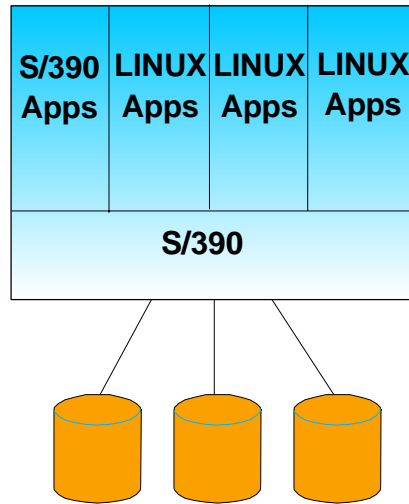

IBM @ business servers. Technology. Innovation. Magic.

Linux Scenarios

Linux for S/390

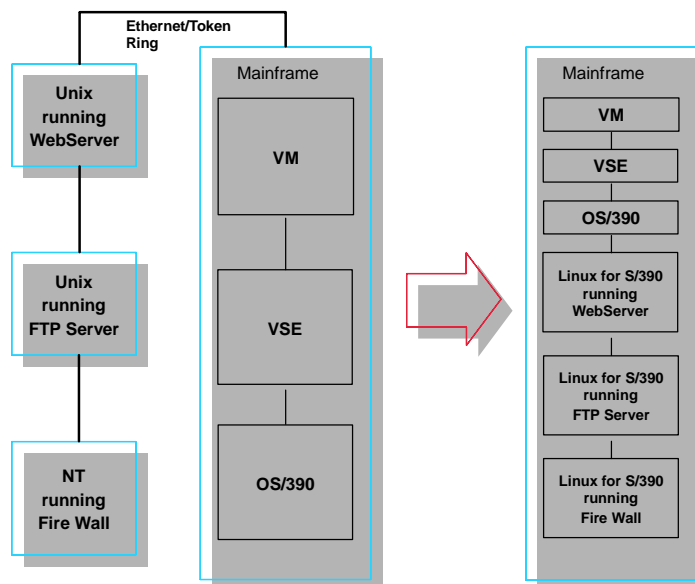

- **S/390 Qualities of Service**
 - ▶ Leverage S/390 Technology
 - ▶ Low latency networking to Backend Transaction Data
- **Reduce Total Cost of Computing**
 - ▶ Large Horizontal growth through Virtual Servers
 - ▶ Low Administration and Management Overhead
 - ▶ Flexible, Fast Server Deployment

Linux Scenarios

Linux for S/390

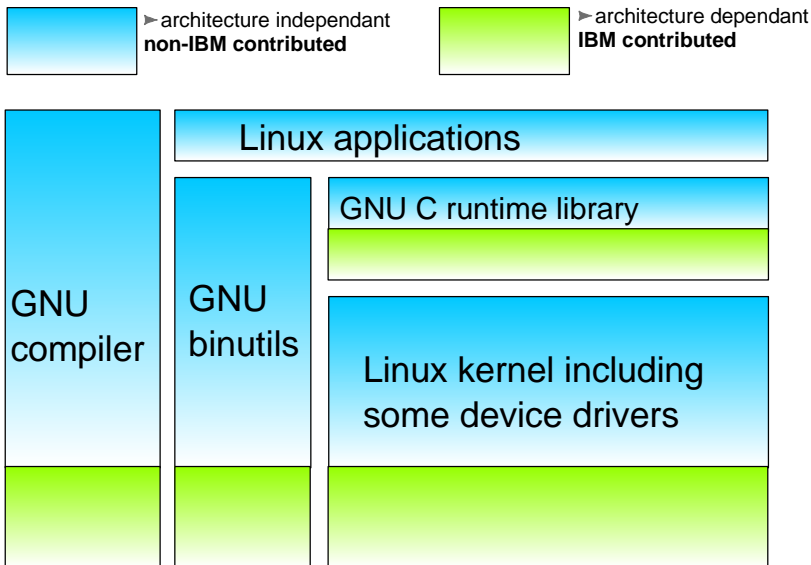

- **Linux server consolidation**

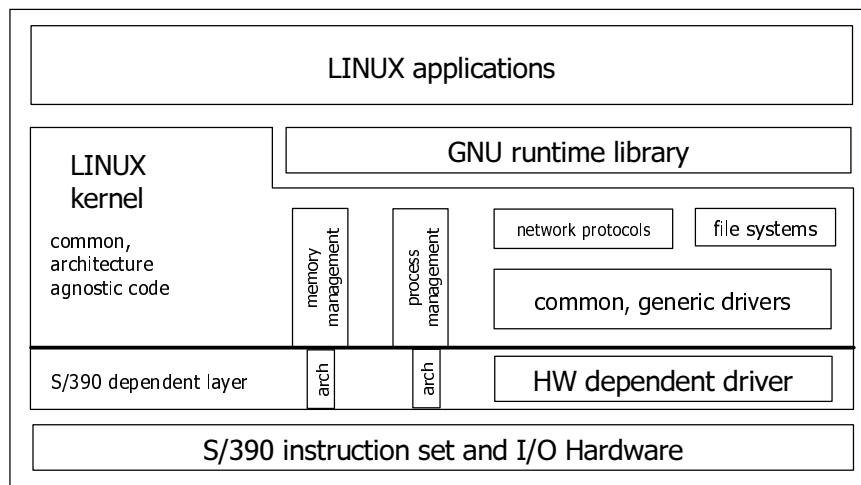

System Structure

Linux for S/390

System Structure

Linux for S/390

Linux - modular and highly portable

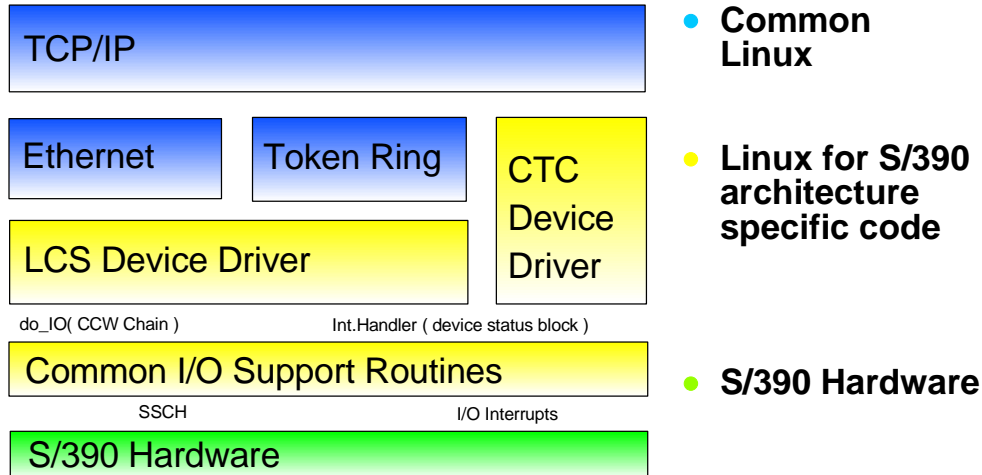

System Structure

Linux for S/390

Example for network support

IBM @ business servers. Technology. Innovation. Magic.

Device Support

Linux for S/390

- **Common I/O Support**
 - ▶ Allow for 64k subchannels
 - ▶ Dynamic device attach / detach
- **System Console Support**
 - ▶ Integrated Console at the Support Element (SE)
 - ▶ Hardware Management Console (HMC)
 - ▶ 3215 line mode (VM, P/390, R/390, IS/390)
- **Disk Support**
 - ▶ ECKD (3990/3390, 3990/3380, 9345, ...)
 - ▶ Reserved VM Minidisks (CKD, ECKD, FBA)

IBM @ business servers. Technology. Innovation. Magic.

Device Support

Linux for S/390

- **Network Support**
 - ▶ Ethernet, Token Ring, Fast Ethernet (FE), ATM LAN Emulation (ATM LE)
 - ▶ IUCV (VM)
 - ▶ ESCON, and parallel CTCA (incl. VCTCA - VM)
 - ▶ OSA-2 (EnTr, FE, ATM LE)
 - ▶ LAN Channel Station (LCS) protocol
 - ▶ OSA Express Fast Ethernet (LCS)
 - ▶ 3172 - real, emulated (LCS)
 - ▶ IBM 2216 Router (LCS - ESCON connected)
- **Tape Support**
 - ▶ 3480/3490 (in development)

IBM @ business servers. Technology. Innovation. Magic.

System Requirements

Linux for S/390

- **Processor Requirements**
 - ▶ 9672 Rx2 - Rx7
 - ▶ Multiprise 2000 / 3000
 - ▶ Integrated Server
 - ▶ P/390, R/390
- **Memory Requirements**
 - ▶ 64 MB+
- **Disk Space Requirements**
 - ▶ 500 Cyl + (3390)

IBM @ business servers. Technology. Innovation. Magic.

Where to get ...

Linux for S/390

- **Marist College**
 - ▶ limited contents "distribution" based on the Linux for S/390 source deltas with about 100+ packages compiled.
- **SuSE**
 - ▶ SuSE announced to release a Linux for S/390 distribution in 2H2000
- **TurboLinux**
 - ▶ TurboLinux announced to release a Linux for S/390 distribution in 2H2000

IBM @ business servers. Technology. Innovation. Magic.

Software ...

Linux for S/390

- **IBM**

Product / Package	Availability
DB2 Connect / DB2 UDB	Beta 3Q00 / Avail. 4Q00
IMS Connect	Beta 3Q00 / Avail. 4Q00
Webspere 3.5 on JVM 1.2.2	Beta 3Q00 / Avail. 4Q00
MQSeries	Beta 3Q00 / Avail. 4Q00
CICS Transaction Gateway	Beta 3Q00 / Avail. 4Q00

- **Software AG**
 - ▶ Tamino XML Information Server
- **BMC**
 - ▶ BMC Patrol

IBM @ business servers. Technology. Innovation. Magic.

Support ...

Linux for S/390

- **IBM Global Services will offer ...**
 - ▶ Consulting and planning services
 - ▶ Implementation services
 - ▶ Infrastructure design
 - ▶ Application enablement services
 - ▶ Database enablement services
 - ▶ Defect and remote technical support for SuSE and TurboLinux distributions

IBM @ business servers. Technology. Innovation. Magic.

Linux Strategy ...

Linux for S/390

- **S/390 is pursuing ...**
 - ▶ Evaluation of Linux marketplace - especially high end servers
 - ▶ Using S/390 Linux to complement S/390 Operating Systems and leverage enterprise data
 - ▶ S/390 hardware value for Linux environments
- **S/390 is not pursuing ...**
 - ▶ A unique version of Linux
 - ▶ A Linux personality on another operating system
 - ▶ Replacing an existing operating system with Linux for S/390

IBM @ business servers. Technology. Innovation. Magic.

Summary ...

Linux for S/390

- **Linux for S/390 is no a replacement for existing S/390 operating system environments**
 - ▶ **Complementary system environment**
 - ▶ **Exploit S/390 'Quality of Service' for UNIX style customer applications**
 - ▶ **Brings Linux product portfolio to S/390**
 - ▶ **A single, common development / run-time environment : develop anywhere what you want to run on the host**

IBM @ business servers. Technology. Innovation. Magic.

Summary ...

Linux for S/390

- **Linux for S/390 is no replacement for existing S/390 operating system environments (cont.)**
 - ▶ **Allows for heterogenous software solutions on single hardware platform**
 - **Allows for powerful connection of traditional S/390 applications to Linux/UNIX type applications**
 - **Allows for integrated Linux-OS/390, or Linux-VSE software solutions**

IBM @ business servers. Technology. Innovation. Magic.
