

Opening problems (PMRs) for z/VSE V6.1

Due to a problem in the SR-Tool, the product z/VSE V6.1 is not displayed on the product list when you search for z/VSE V6.1. However, you still can open PMRs for z/VSE V6.1 components by searching for the individual z/VSE V6.1 component, see following list:

z/VSE V6.1 components:

VSE/AF Base Supervisor / BSM / LIBR	61C
VSE/AF Info/Analysis	61C
VSE/AF IOCP	61C
VSE/AF MSHP (Maintain System History Program)	61C
VSE/Fastcopy	61C
VSE/ICCF (Interactive Computing and Control Facility)	61C
VSE/POWER	61C
VSE/SP Unique Code	61C
VSE/VSAM	61C
Encryption Facility for z/VSE	61Y
LE for z/VSE Base	61K
LE for z/VSE C	61L
LE for z/VSE Cobol	61W
LE for z/VSE PL/1	61Z
OS/390 APIs	61V
OSA/SF (Open Systems Adapter Support Facility)	61O
REXX/VSE Kernel and Interface	61I
REXX/VSE Library	61I
VSE Connector Server	61N
VSE Connector Workstation Code	61P

The same is true also for **IPv6 V1.2**. The product is not displayed on the SR-Tool, but the associated component is visible:

IPv6/VSE V1.2	D01
---------------	-----

Neither the product **TCP/IP for z/VSE V2.1** nor the component TCP/IP for z/VSE (ETP) is on the SR-Tool. Please open a PMR for product z/VSE V5.2, component TCP/IP for VSE/ESA (CTP) and specify in the problem description that you want to open a problem for TCP/IP for z/VSE V2.1 (ETP) in z/VSE V6.1.

TCP/IP for z/VSE V2.1 (for z/VSE 6.1)	ETP
TCP/IP for VSE/ESA (for z/VSE V5.2)	CTP
