

This PSP contains a section:

Links to group member PTF special instructions:

http://www.ibm.com/support/docview.wss?uid=nas4SF99722_SI

In that list, there are 2 PTFs for R720. The PTFs are for 5770SS1 and 5770999, which are Release specific and should not be in a R730 group. It would be different if they were in a product (like 5770HAS) that is skip shipped and had a level of R720 whether on R720 or R730 of LIC/OS.
