

SF99647: 710 DB2 Web Query for i V2.1.0

PTF Group Level: 17

Last Updated: 8/24/17

How to Display: WRKPTFGRP SF99647

Description: IBM DB2 Web Query for i Group PTF V7R1.

This group delivers the WQX-v210-HF17-Aug.2017 (hotfix 17) level of fixes for DB2 Web Query for i.

Be sure to end Web Query with the ENDWEBQRY command before applying this group PTF.

This group PTF applies a save file for an updated version of tutorial library, QWQCENT. If applying this group PTF over GA level Web Query 2.1, backup the existing QWQCENT library on your system, and then restore the updated library from the save file QWEBQRY/QWQCENT; if you've already performed this step for a prior level group PTF, there is no need to repeat it.

After applying this PTF, users of the Web Query Spreadsheet Client feature who are upgrading from GA level will need to refresh two files on their PC, which are wqsclient.xla and wqsclient.cfg. Users of the Web Query Spreadsheet Client feature who are upgrading from HF1 level will only need to refresh wqsclient.xla.

After applying this PTF, users of the Web Query Developer Workbench feature will need to refresh the client on their PC. Download the two files for this group level from /qibm/proddata/qwebqry/DeveloperWorkbench in the IFS to the PC, and then run the .exe file.

Planned Update Schedule: Every 3 months
