

SF99662: 740 IBM HTTP Server for i

PTF Group Level: 34

Last Updated: 12/15/23

How to Display: WRKPTFGRP SF99662

Description: Description: IBM HTTP Server for i 7.4 PTF Group.

Includes:

- IBM Navigator for i
- Web Administration GUI for IBM i, manage all your Web related servers
- HTTP Server (powered by Apache 2.4)
- Net.Data
- IBM integrated Web application server
- IBM integrated Web services server
- IBM integrated Web services client for ILE
- IBM Access Client for i
- IBM Administration Runtime Expert for i

\*\*\*\*\*ADMIN SERVER PRE-REQUISITES\*\*\*\*\*

For the IBM HTTP ADMIN Server to function properly you must have the following installed on your IBM i server:

- 1) SF99665 level 2 or higher applied
- 2) 5770JV1 option 17 (Java SE 8 64 bit)
- 3) 5770SS1 option 33 (Portable Application Solutions Environment)

For Integrated Application Servers (IAS/IWS) to function properly, it is recommended that the NLS settings of the system conforms to the values indicated in this URL -

<https://www.ibm.com/docs/en/i/7.4?topic=qshell-national-language-support-nls-considerations>

\*\*\*\*\*ADMIN SERVER INFORMATION\*\*\*\*\*

With the latest updates to the HTTP PTF Group, the ADMIN2 server will no longer be started or enabled by default. This means that the Heritage Navigator will no longer be accessible without the user manually enabling and starting the ADMIN2 server. See the following page for details: <https://www.ibm.com/support/pages/node/6556828>

The default URL <http://hostname:2001> or <https://hostname:2010> now opens the new IBM Navigator for i. NOTE: The new IBM Navigator for i, leverage new function usage IDs. The old function usage IDs used in the past to restrict users still apply to Heritage Navigator and Access Client Solutions. Because of the number of old function usage IDs there was no practical way to map to the new interface. If you wish to restrict users additionally beyond their user profile

authorizations the new function usage IDs need to be applied. Details can be found at: <https://www.ibm.com/support/pages/node/6485853>

The WAS Liberty Runtime used by the ADMIN Server and other Integrated Application Servers (IAS/IWS) is version 23.0.0.3 in this group. This version of the Liberty server requires a minimum JRE version of 1.8 (Java 8).
