

SF99712: 720 Technology Refresh plus Recommended Groups

PTF Group Level: 1

Last Updated: 5/19/16

How to Display: WRKPTFGRP SF99712

Description: This PTF Group includes the recommended PTF groups that are most frequently downloaded and widely used to stay current with Technology Refresh deliveries.

Those PTF groups are:

- Technology Refresh
- HIPER
- DB2 for IBM i
- IBM HTTP Server for i
- Java

This PTF group should be ordered and installed when a new TR level is released. The PTF groups are included by listing them as related PTF groups. Use option 9 (Display related PTF groups) on the Work with PTF Groups (WRKPTFGRP) command to display the included PTF groups. Each time you order PTF group SF99712, only the PTFs you are missing will be downloaded, along with the most recent level of each related PTF group.

Note that this PTF Group does not contain all new functions announced and delivered for a particular Technology Refresh -- just the most common and frequently used PTF Groups. See the Technology Updates website (<http://www.ibm.com/developerworks/ibmi/techupdates>) for complete information about new functions.

Planned Update Schedule: Since the latest level of each PTF group is downloaded each time you order SF99712, this PTF group will rarely be updated; only when a PTF group is added to the recommended list.

Related PTF Group(s): SF99717

- SF99719
- SF99702
- SF99713
- SF99716
