Install ACS Windows Application Package Steps (no screenshots)

iDoctor GUI requires the **ACS windows application package.** IBM i Access Client Solutions (base package) does not need to be installed, if you only want to make the iDoctor GUI work.

Please follow these steps:

1. Go to the **IBM ACS download page** (an IBM ID, free, is required): https://www.ibm.com/resources/mrs/assets?source=swg-ia (sign in or create an IBM ID if prompted, and answer any marketing question if asked).

2. Download the **ACS Windows Application Package (64-bit, English)**. This will save as a ZIP file.

3. In Chrome: click the downloads icon then open folder icon next to the downloaded file to **Show in folder**. In **File Explorer**: right-click the ZIP → Extract All… (or use your unzip program). Extract to a folder you can easily find (e.g. C:\ACS\).

4. Open the extracted folder and then the subfolder named **Image64A**.

5. Scroll to the bottom of the **Image64A** folder, double-click **setup.exe**, and follow the default installation prompts.

Install ACS Windows Application Package Steps (same steps but with screenshots)

iDoctor GUI requires the **ACS windows application package.** IBM i Access Client Solutions (base package) does not need to be installed, if you only want to make the iDoctor GUI work.

Please follow these steps:

1. Go to the **IBM ACS download page** (an IBM ID, free, is required): https://www.ibm.com/resources/mrs/assets?source=swg-ia (sign in or create an IBM ID if prompted, and answer any marketing question if asked).

2. Download the **ACS Windows Application Package (64-bit, English)**. This will save as a ZIP file.
