

# ***IBM SPSS Statistics for Windows Abbreviated Installation Instructions (Site License)***

The following instructions are for installing IBM® SPSS® Statistics version 20 using a site license.

During installation, you will be prompted for the following information. Contact your site administrator if you do not have the following information.

**Name:**

**Organization:**

**Authorization Code:**

## ***Installing IBM SPSS Statistics***

Your administrator might have given you an installation disk or identified a network location from which to install. Check with your administrator if you do not know how you are supposed to install IBM® SPSS® Statistics.

*Note:* To install SPSS Statistics, you must be logged on to your computer with administrator privileges.

## ***Running Multiple Versions and Upgrading from a Previous Release***

You do not need to uninstall an old version of IBM® SPSS® Statistics before installing the new version. Multiple versions can be installed and run on the same machine. However, do not install the new version in the same directory in which a previous version is installed.

## ***Note for IBM SPSS Statistics Developer***

If you are installing IBM® SPSS® Statistics Developer, you can run the product standalone. You can also install R Essentials and Python Essentials to develop with R and Python.

## ***Installing from a Downloaded File***

### ***Windows XP***

- ▶ Double-click the file that you downloaded and extract the files to some location on your computer.
- ▶ Using Windows Explorer, browse to the location where you extracted the files and double-click *setup.exe*.

- ▶ Follow the instructions that appear on the screen. See [Notes for Installation](#) for any special instructions.

### **Windows Vista or Windows 7**

You must run the installer as administrator:

- ▶ Double-click the file that you downloaded and extract all the files to some location on your computer.
- ▶ Using Windows Explorer, browse to the location where you extracted the files.
- ▶ Right-click *setup.exe* and choose Run as Administrator.
- ▶ Follow the instructions that appear on the screen. See [Notes for Installation](#) for any special instructions.

## **Installing from the DVD/CD**

### **Windows XP**

- ▶ Insert the DVD/CD into your DVD/CD drive. The AutoPlay feature presents a menu.
- ▶ On the AutoPlay menu, click Install IBM SPSS Statistics, and then follow the instructions that appear on the screen. See [Notes for Installation](#) for any special instructions.

### **Windows Vista or Windows 7**

You must run the AutoPlay as administrator:

- ▶ Close the AutoPlay window that automatically appeared when you inserted the DVD/CD into your DVD/CD drive.
- ▶ Using Windows Explorer, browse to the DVD/CD drive.
- ▶ Right-click *setup.exe* in the *Windows* subfolder and choose Run as Administrator.
- ▶ On the AutoPlay menu, click Install IBM SPSS Statistics, and then follow the instructions that appear on the screen. See [Notes for Installation](#) for any special instructions.

## **Installing from a Network Location**

- ▶ Using Windows Explorer, browse to the location that your administrator provided for the *setup.exe* file.
- ▶ If your computer is running Windows Vista or 7, right-click *setup.exe* and choose Run as Administrator. Otherwise, double-click the file.
- ▶ On the AutoPlay menu, click Install IBM SPSS Statistics, and then follow the instructions that appear on the screen. See [Notes for Installation](#) for any special instructions.

## **Notes for Installation**

This section contains special instructions for this installation.

**License type.** Be sure to select Site License.

**Help language.** IBM® SPSS® Statistics provides the ability to change the user interface language. If you want the help language to always match the user interface language, select the languages that you may use. Installing help for additional languages increases disk space requirements by 60-70 MB for each language. You can also install additional languages later by choosing to change the installation in the Windows Control Panel.

## **Using the License Authorization Wizard**

*Note:* If you are running Windows Vista, you may be prompted for administrator credentials. Without the correct credentials, you will not be able to run the License Authorization Wizard.

- ▶ If you don't launch the License Authorization Wizard during installation or cancel the License Authorization Wizard before obtaining a license, you can launch it by choosing License Authorization Wizard in the Windows Start menu program group for IBM® SPSS® Statistics. On Windows Vista or 7, you must run as administrator. Right-click the License Authorization Wizard shortcut and choose Run As Administrator.
- ▶ When prompted, choose License my product now.
- ▶ When prompted, enter one or more authorization codes. You should have received the authorization code(s) from your administrator.

The License Authorization Wizard sends your authorization code over the Internet to IBM Corp. and automatically retrieves your license. If your computer is behind a proxy, click Configure proxy settings and enter the appropriate settings.

If the authorization process fails, you will be prompted to send an e-mail message. Choose whether you want to send the e-mail message through your desktop e-mail program or through a Web-based e-mail application.

- If you choose the desktop option, a new message with the appropriate information will be created automatically.
- If you choose the Web-based option, you must first create a new message in your Web-based e-mail program. Then copy the message text from the License Authorization Wizard and paste it into your e-mail application.

Send the e-mail message and respond to the prompt in the License Authorization Wizard. The e-mail message will be processed almost instantaneously. You can click Enter License Code(s) to enter any license code(s) that you receive. If you already closed the License Authorization Wizard, restart it and select License my product now. On the Enter Codes panel, add the license code that you received and click Next to complete the process.
