

Quick Start Guide

This guide describes a quick and easy way to install the product.

Product overview

IBM SPSS Statistics Developer lets users integrate the power of R and Python with the core functionality of IBM SPSS Statistics platform. A custom dialog builder allows new functions to be completely integrated into the user interface. It is easy to install and easy to use. With it, you can:

- Access thousands of advanced R algorithms and packages
- Wrap R packages and algorithms in IBM SPSS Statistics syntax
- Use all IBM SPSS Statistics' data handling functions, and work with large datasets
- Efficiently produce graphs and other forms of output
- Distribute R packages to a wide range of users via web download or e-mail

1 Step 1: Access the software and documentation

If you are installing with the DVD provided with the product, proceed to the next step. If you are downloading your product from Passport Advantage, follow the instructions in the download document available on the web at:

<http://www.ibm.com/support/docview.wss?uid=swg24038592>

Detailed installation documents (PDF) are available on the installation media in the `/Documentation/<language>/InstallationDocuments` directory. These documents can also be downloaded from the web at:

<http://www.ibm.com/support/docview.wss?uid=swg27043946>

2 Step 2: Evaluate the hardware and system configuration

Information on hardware and system configuration requirements are available at:

www.ibm.com/software/analytics/spss/products/statistics/requirements.html

3 Step 3: Get started

To install the product, please refer to the following documents, which you can find in the `Documentation/<language>/InstallationDocuments` directory of the installation media. As previously mentioned, the installation documents can also be accessed from the web at:

<http://www.ibm.com/support/docview.wss?uid=swg27043946>

If you have a single user license, refer to: `Authorized User License Installation Instructions.pdf`

If you have a site license, refer to:

- `Site License Administrators Guide.pdf`. Read this document first. It contains information about distributing the software to the users.
- `Authorized User License Installation Instructions.pdf`. Read this document for information about installing the product on the end users' computers. You can also distribute this document to the end users.

If you have a network (concurrent) license, refer to:

- `Concurrent License Administrator's Guide.pdf`. Read this document first. It contains information about setting up the network license manager and distributing the software to the users.
- `Concurrent License User Installation Instructions.pdf`. Read this document for information about installing the product on the end users' computers.
