

# ***IBM SPSS Text Analytics for Surveys and JAWS***

IBM® SPSS® Text Analytics for Surveys offers accessibility for all users, as well as specific support for users with visual and other functional impairments. Use the following instructions to enable the Java Access Bridge for JAWS 8.0.2173.2 to work with this product.

## **To Enable the Java Access Bridge**

- ▶ If not already the case, add the directory <product\_install\_path>\jre\bin to the beginning of the *Path* system environment variable. By default, the product installation directory is C:\Program Files\IBM\SPSS\Text Analytics for Surveys\4.0. If you change the system environment variable, we recommend rebooting before you continue.
- ▶ In the product installation directory, open the file \jre\lib\accessibility.properties in a standard text editor and verify that the following line is not commented by removing the comment character (#) preceding this line, if this character exists.

```
assistive_technologies=COM.SUN.Java.accessibility.AccessBridge
```

- ▶ Save your changes to this file.
- ▶ Launch JAWS.
- ▶ Launch SPSS Text Analytics for Surveys.
