LICENSE INFORMATION

The Programs listed below are licensed under the following terms and conditions in addition to those of the IBM International Program License Agreement (IBM form number Z125-3301-14).

Program Name: IBM Cognos Insight Standard Edition 10.2.2

Program Number: 5725-F64

Authorized User

Authorized User is a unit of measure by which the Program can be licensed. An Authorized User is a unique person who is given access to the Program. The Program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the Program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.
