IBM Sterling Gentran:Server for iSeries Release 3.6 Standards Installation

Purpose

The purpose of this document is to provide instructions for installing the Standards that you received with IBM® Sterling Gentran:Server® for iSeries® Release 3.6.

Note

The DWNSTD job does not have to be run by the QSECOFR user. However, the user must have authority access to the CRTLIB and RSTOBJ iSeries commands that will be used during the job.

X12 Licensing Information

Standards information and related data embedded in the data table in the Licensee Software, Outsourcing Services and Combined Software Solutions are protected by copyright and other the intellectual property of X12 Incorporated, a non-profit organization chartered by the American National Standards Institute to develop and maintain EDI standards and XML schemas. In order to provide and fund these activities in serving American industry, X12 is willing to grant to all end users of the Licensee Software, Outsourcing Services or Combined Software Solutions a license at a royalty of \$180 per year. IBM strongly recommends that you contact X12 at <https://x12.org/products/licensing-program/partners/ibm> to obtain a license to use and access X12 metadata, represented in, for example, more than 30 versions of more than 300 transaction sets and implementation guides, through X12's online viewer, Glass.

Installing Standards

Use the following procedure to install the Standards. You may either add new standards to your online versions or replace all of your online standards with a different list of versions.

1. If installing from CD-ROM, load the Standards CD-ROM. The Standards CD-ROM volume ID is GSISTD.

If installing from save files, download the Standards save file onto your iSeries. Refer to the instructions for downloading standards from a save file.
2. For Standards, type **DWNSTD** on the command line and press **F4** (prompt).

System Response

The system displays the following screen.
