PGP Partner Manager

The PGP Partner Manager enables you to add, edit, and delete PGP partners. You can set partner specific parameters using PGP Partner Manager. While executing a BPML, you can associate a partner with an existing sponsor or server profile or both.

Create a PGP Partner

Procedure

1. From the **Administration Menu**, select **Trading Partner > PGP > PGP Partner Manager**.
2. Next to **Create PGP Partner**, click **Go!**
3. Enter the following information and click **Next**:

Field	Description
PGP Partner Name	Required. Name of the PGP Partner.
Document to be Signed by the Partner	<p>Required. Data to be signed by the Partner.</p> <p>Valid values are:</p> <ul style="list-style-type: none">• Yes• No <p>Important: If you selected PGP Type GnuPg Command Line when you configured your PGP Server Type, you must now select Yes for Document to be Signed by the Partner, and Yes for Document to be Compressed by the Partner.</p> <p>Default is No. If you select yes, the following parameters are displayed in the Signing Information page:</p> <ul style="list-style-type: none">• Document to be Compressed by the Partner - Compression to be done before encryption or signing. Valid values are Yes and No. Default is No.• Text Mode - Whether the input data is ASCII text and should be converted to canonical new lines before encryption.• ASCII Armor - Whether to encode the file with E-Business Server's base-64 encoding (ASCII-armored format).• Allow PGP MIME Format - This parameter is enabled only if you selected ASCII Armor as the encoding format. Valid values are Yes and No. Default is Yes.

Field	Description
Document to be Encrypted by the Partner	<p>Required. Data to be encrypted by the Partner.</p> <p>Valid values are:</p> <ul style="list-style-type: none"> • Yes • No <p>Important: If you selected PGP Type GnuPg Command Line when you configured your PGP Server Type, you must now select Yes for Document to be Signed by the Partner, and Yes for Document to be Compressed by the Partner.</p> <p>Default is No. If you select yes, the following parameters are displayed in the Encryption Information page:</p> <ul style="list-style-type: none"> • Document to be Compressed by the Partner - Compression to be done before encryption or signing. Valid values are Yes and No. Default is No. • Public key ring to be used for encryption - Specify the user name or key ID. • Text Mode - Whether the input data is ASCII text and should be converted to canonical new lines before encryption. • ASCII Armor - Whether to encode the file with E-Business Server's base-64 encoding (ASCII-armored format). • Allow PGP MIME Format - This parameter is enabled only if you selected ASCII Armor as the encoding format. Valid values are Yes and No. Default is Yes.
Clear Signature	<p>Optional. Specify the Clear Signature.</p> <p>Generates a signed message that can be read without PGP. The recipient must still use PGP to verify the signature. Unencrypted PGP-signed messages have a signature certificate pre-pended in binary form. The signed message is compressed. Therefore, it is unreadable by humans even though it is not encrypted. Cannot be used with EncryptAndSign on the command line. To enable the full clearsig behavior, ascii_armor and textmode must also be on.</p>
OutputFileName	<p>Optional. Specify the Output File Name.</p> <p>For E-Business Server outputfilename must have an extension of .asc or .pgp. If a different extension is used, outputfilename will be appended with .asc.</p> <p>For all versions, if outputfilename is not specified, the file name is retrieved from the name of the primary document or the body name of the document and is appended with the following:</p> <ul style="list-style-type: none"> • *.asc during normal encryption • .exe during sda process • .pga during pgparchive process

4. After completing the **PGP Partner Manager** configuration, review the settings on the **Confirm** page and click **Finish**.

Edit a PGP Partner

Procedure

1. From the **Administration Menu**, select **Trading Partner > PGP > PGP Partner Manager**.
2. Click **Go!** next to **List Alphabetically**.
3. Click **edit** next to the partner you want to edit.
4. Revise the fields as necessary.
5. Click **Save** when finished.

Delete a PGP Partner

Procedure

1. From the **Administration Menu**, select **Trading Partner > PGP > PGP Partner Manager**.
2. Click **Go!** next to **List Alphabetically**.
3. Click **delete** next to the partner you want to delete.

Notices

This information was developed for products and services offered in the US. This material might be available from IBM in other languages. However, you may be required to own a copy of the product or product version in that language in order to access it.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

*IBM Director of Licensing
IBM Corporation
North Castle Drive, MD-NC119
Armonk, NY 10504-1785
US*

For license inquiries regarding double-byte character set (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

*Intellectual Property Licensing
Legal and Intellectual Property Law
IBM Japan Ltd.
19-21, Nihonbashi-Hakozakicho, Chuo-ku
Tokyo 103-8510, Japan*

Some jurisdictions do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM websites are provided for convenience only and do not in any manner serve as an endorsement of those

websites. The materials at those websites are not part of the materials for this IBM product and use of those websites is at your own risk.

IBM may use or distribute any of the information you provide in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

*IBM Director of Licensing
IBM Corporation
North Castle Drive, MD-NC119
Armonk, NY 10504-1785
US*

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

The performance data and client examples cited are presented for illustrative purposes only. Actual performance results may vary depending on specific configurations and operating conditions.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

Statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

All IBM prices shown are IBM's suggested retail prices, are current and are subject to change without notice. Dealer prices may vary.

This information is for planning purposes only. The information herein is subject to change before the products described become available.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to actual people or business enterprises is entirely coincidental.

COPYRIGHT LICENSE:

This information contains sample application programs in source language, which illustrate programming techniques on various operating platforms. You may copy, modify, and distribute these sample programs in any form without payment to

IBM, for the purposes of developing, using, marketing or distributing application programs conforming to the application programming interface for the operating platform for which the sample programs are written. These examples have not been thoroughly tested under all conditions. IBM, therefore, cannot guarantee or imply reliability, serviceability, or function of these programs. The sample programs are provided "AS IS", without warranty of any kind. IBM shall not be liable for any damages arising out of your use of the sample programs.

Terms and conditions for product documentation

Permissions for the use of these publications are granted subject to the following terms and conditions.

Applicability

These terms and conditions are in addition to any terms of use for the IBM website.

Personal use

You may reproduce these publications for your personal, noncommercial use provided that all proprietary notices are preserved. You may not distribute, display or make derivative work of these publications, or any portion thereof, without the express consent of IBM.

Commercial use

You may reproduce, distribute and display these publications solely within your enterprise provided that all proprietary notices are preserved. You may not make derivative works of these publications, or reproduce, distribute or display these publications or any portion thereof outside your enterprise, without the express consent of IBM.

Rights

Except as expressly granted in this permission, no other permissions, licenses or rights are granted, either express or implied, to the publications or any information, data, software or other intellectual property contained therein.

IBM reserves the right to withdraw the permissions granted herein whenever, in its discretion, the use of the publications is detrimental to its interest or, as determined by IBM, the above instructions are not being properly followed.

You may not download, export or re-export this information except in full compliance with all applicable laws and regulations, including all United States export laws and regulations.

IBM MAKES NO GUARANTEE ABOUT THE CONTENT OF THESE PUBLICATIONS. THE PUBLICATIONS ARE PROVIDED "AS-IS" AND WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, AND FITNESS FOR A PARTICULAR PURPOSE.
