--------------------------	----------

In This Fix Pack

This fix pack contains the enhanced support for IBM® Sterling Field Sales security features.

Installation Information

The prerequisites for this fix pack differ, depending on whether you are a new customer or an existing customer.

Prerequisites

Before you begin installing this fix pack, complete these prerequisites:

- If you are a new customer:
 - Install Sterling Field Sales Release 9.1.0.0 before you install this fix pack. The installation procedure for Release 9.1 is available on the Information Center.
 - Follow the “Fix Pack Installation Procedure” below.
- If you are an existing customer, follow the “Fix Pack Installation Procedure” below.

Fix Pack Installation Procedure

This fix pack is available on the Sterling Commerce® Customer Center and on IBM Fix Central.

The fix pack installation instructions file, `SFS_Fix_Pack_Installation.txt`, is included in the fix pack download.

Defects Addressed In This Fix Pack

The following defects have been addressed in this fix pack to Sterling Field Sales, Release 9.1. As fix packs are released, they will be listed cumulatively here.

Fix Pack 14

Fix Pack 9.1.0.14

Defect ID	313473, 344305, 347692, 347694, 347695
Case ID	90557,999,000, 2558,7TD,000, 18009.7TD,000, 18008,7TD,000, 18012,7TD,000
Description	In the Sterling Field Sales-Sales Force integrated environment, the alignment of the pop-up dialog boxes opened by the application must be corrected.

Fix Pack 13

Fix Pack 9.1.0.13

Defect ID	334327
Case ID	68234,7TD,000

Description	When a proposal is generated multiple times after making changes to the same quote, the generated PDF does not reflect the changes made to the Quote and renders the PDF file from the cache depending on the browser settings. Solution: The issue has been fixed to work irrespective of the browser cache settings. The PDF is fetched from the server instead of using the browser cache by keeping the URL unique and thus reflecting the changes made to the quote in the generated PDF.
Defect ID	334336
Case ID	68405,7TD,000
Description	In the Sterling Field Sales-Salesforce integrated environment, the size of Item Configurator pop-up window that is opened from the Field Sales must be reduced.
Defect ID	336041
Case ID	Internal
Description	In the Sterling Field Sales-Salesforce integrated environment, the Notes, Item Configurator, View Component, and Item Browsing pop-up windows in Field Sales must be displayed in the center of the browser, as the pop-up window does not consistently display in the specified position on the browser.
Defect ID	336587
Case ID	Internal
Description	The performance of the application is slow because several CSS file requests are sent to the server. Solution: The CSS files used in the application have been combined together, so that the number of CSS file requests are reduced.
Defect ID	336590
Case ID	Internal
Description	When a user accesses the Quotes screen from Sales Force, a blank screen is displayed while loading the page. Solution: While loading the page, the user will see a blank screen for some time and later the message, "Loading..Please Wait" is displayed. Known Issue: Whenever an error is encountered, the message "Loading..Please Wait" is permanently displayed at the top of the screen.

Fix Pack 12

Defect ID	329723
------------------	--------

Fix Pack 9.1.0.12

Case ID 52723,7TD,000

Description When a user accesses the Create Quotes screen for the first time from Sales force, with an empty browser cache, it takes a long time to load the screen as multiple javascript files are downloaded in the browser.

Solution: A new 'javascript combiner tool' has been introduced, to reduce the number of javascript files getting downloaded in the browser. The tool must be run before building the WAR/EAR file.

Read the SFS_Fix_Pack_Installation.txt for more details. To enable this feature, ensure that the following context parameter is set to true in the web.xml file. By default this is set to false.

```
<context-param>  
  
<param-name>sfs-enable-optimized-jsb</param-name>  
  
<param-value>TRUE</param-value>  
  
</context-param>
```

Fix Pack 11

Fix Pack 9.1.0.11

Defect ID 291287

Case ID 00382955

Description The application must be enhanced to support 6 decimal precision for Manual Pricing Rule percentage adjustment for Line level and Order level Manual adjustments to enable finer control on the amount of discount given.

Fix Pack 10

Fix Pack 9.1.0.10

Defect ID 311874, 312443

Case ID Internal

Description Security issues have been addressed.

Fix Pack 9

Fix Pack 9.1.0.9

Defect ID 303940

Case ID Internal

Description Security issues have been addressed.

Fix Pack 8

Fix Pack 9.1.0.8

Defect ID	258252
Case ID	Internal
Description	Globalization issues have been addressed.

Fix Pack 7

Fix Pack 9.1.0.7

Defect ID	256129
Case ID	00358815
Description	When a user adds a new quote line after deleting more than one existing quote lines, on saving the quote, only the last quote line is deleted instead of deleting all the quote lines.

Fix Pack 6

Fix Pack 9.1.0.6

Defect ID	254471
Case ID	00355595
Description	For a manual pricing rule, when a user adds a discount value that exceeds the maximum allowed value, an error message is displayed. But when the user closes the error message and the popup and retries to add the exceeded discount value, the error message is not displayed.

Note: This issue occurs in Internet Explorer only.

Fix Pack 5

Fix Pack 9.1.0.5

Defect ID	254277
Case ID	00354995
Description	SFS 9.1.0-FP2 has dependencies on Foundation 9.1.0-FP2.

Defect ID	254481
Case ID	00355188
Description	In the Quote Primary Information panel, when the Header is modified and saved, "No Changes to save" error is displayed.

Fix Pack 4

Fix Pack 9.1.0.4

Defect ID	249422
Case ID	Internal
Description	The customer search (Business or Consumer) in the Sterling Field Sales listed inactive customers records along with active customers records.
Defect ID	251318
Case ID	Internal
Description	In the User Search pop-up window, the search results grid header must not have a check box to select all the users as the search performed is for a single user.
Defect ID	252652
Case ID	Internal
Description	If a customer address is not provided and if the same customer is chosen for an opportunity, the system must not throw an error message.
Defect ID	252658
Case ID	Internal
Description	Globalization issues have been addressed.
Defect ID	252952
Case ID	00346443
Description	A user is not able to save the extended fields in the Quote header, as there is no save functionality implemented on Sterling Filed Sales Quote header. Solution: A QuotePrimaryInformation target namespace for the header extended field has been introduced to save the value..

Fix Pack 3

Fix Pack 9.1.0.3

Defect ID	249692
Case ID	Internal
Description	All the globalization issues have been addressed.

Fix Pack 2

Fix Pack 9.1.0.2

Defect ID	209536
Case ID	Internal
Description	Computed values might not be displayed with the correct decimal precision. For example, if the result of a calculation is 2, and amount field supports 4 decimal digit, then in the UI the value displayed is 2, rather than 2.0000.
Defect ID	213242
Case ID	Internal
Description	Sterling Field Sales does not support the thousands separator for numerical fields.
Defect ID	227683
Case ID	Internal
Description	If the user's currency is different from the enterprise currency, then the Customer Rating Details graph is displayed in the user's currency instead of the enterprise currency. Solution: The Customer Rating Details graph displays the enterprise's currency.
Defect ID	239376
Case ID	Internal
Description	After localization, in the application top panel the "Home", "Opportunity", and "Quote" literals are displayed with distorted characters.
Defect ID	241672
Case ID	Internal
Description	In validation.js files, comments that aid the translators to understand which values to change and what impacts these changes, are missing. Solution: This issue has been corrected in this fix pack and comments are now available in the validation.js files.
Defect ID	242195
Case ID	Internal

Fix Pack 9.1.0.2

Description	If a Variation Item does not have any variations configured in Sterling Business Center and you view the item details of the same item in Sterling Field Sales, a null pointer exception is recorded in the log. Solution: The message Variation Items not configured is displayed in the Variation Products tab, of the Item Details page, if there are no variations configured for a Variation Item in Sterling Business Center.
Defect ID	242582
Case ID	Internal
Description	The terms used in bundle entries for Sterling Field Sales need to be compliant with IBM standards.
Defect ID	242767
Case ID	Internal
Description	When viewed in Microsoft Internet Explorer 7 browser, the Credit Card field in the Add Payment dialog box, which is displayed when you click the Add button in the Convert Quote to Order screen, is truncated.
Defect ID	243345
Case ID	Internal
Description	In Customer tab of the Quote Details page, click the Edit link, modify the customer details and click Save . A confirmation message is displayed, which is not necessary.
Defect ID	244448
Case ID	Internal
Description	The UI literal terms used in Sterling Business Center and Sterling Field Sales documentation need to be compliant with IBM standards.
Defect ID	245878
Case ID	Internal
Description	When you click the View Details hyperlink displayed adjacent to the Customer Rating field in the Add Line Adjustment dialog box, the Customer Rating Details report is not displayed.

Fix Pack 1

Fix Pack 9.1.0.1

Defect ID	242919
Case ID	Internal
Description	A security issue has been identified that may allow a cross-site scripting (XSS) attack in IBM Sterling Field Sales and in Sterling Selling and Fulfillment Foundation. Solution: These security issues have been corrected in this fix pack.

Notices

This information was developed for products and services offered in the U.S.A.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing
