

Ready for  
**IBM | DB2®**  
 database software

**Ready for IBM DB2 data server software Validation**

The Ready for IBM DB2® database software mark demonstrates your commitment to quality in the IT industry and can generate greater interest in your business solutions. Achieving this software validation assures your customers that your solution meets key IBM integration standards for DB2 for Linux®, UNIX® and Windows®, and DB2 for z/OS®.

**Complete Validation Process for DB2**

*Including Approximate Time Requirements*

**Time Requirements**

The process should take less than 3 days after the company is registered for PartnerWorld as an ISV. View the chart "Complete Validation Process for DB2" for more information.

**How to Participate**

View the chart "Complete Validation Process for DB2" for an overview of how to validate.

For a step by step guide to validation please follow the document "Complete\_Ready\_for\_DB2\_zOS.pdf".

Documents available in DB2 partner pack or at [www.ibm.com/db2/portal](http://www.ibm.com/db2/portal).

If you are interested in participating, please contact us at [validate@ca.ibm.com](mailto:validate@ca.ibm.com)!
