

## Ready for IBM DB2 database software Validation

[www.ibm.com/isv/data/ready](http://www.ibm.com/isv/data/ready)

Looking to gain exposure by partnering with DB2? Here's your chance to become involved in the partner activities available for IBM DB2.

### DB2 Validation Program - Ready for IBM DB2 database software

The Ready for IBM DB2 database software can help you demonstrate your commitment to quality in the IT industry and show your customers your solution meets key IBM integration standards for DB2 for Linux®, UNIX® and Windows® and DB2 for z/OS®. The "Ready for IBM DB2 database software" program allows vendors who have undergone the validation process to display the validation mark with their product marketing material.

#### To Participate:

Please see "Complete\_Ready\_For\_DB2.pdf" for full steps, documentation and details on participation. Available in DB2 partner pack or at [www.ibm.com/db2/portal](http://www.ibm.com/db2/portal)

### Ready for DB2 Solution Portal

[www.ibm.com/db2/portal](http://www.ibm.com/db2/portal)

The DB2 Solution Portal is an interactive web site designed to showcase our validated 'Ready for' partners and their solutions. Here you will find detailed descriptions of each company, and the solutions they provide. This portal is truly a partner driven website as companies are granted full ownership over their pages. Each partner is given their own login information so that they can dynamically add the latest learning material, white papers and software downloads available!

### IBM Information Agenda Catalog

[www.ibm.com/imaccelerator](http://www.ibm.com/imaccelerator)

The IBM IA Catalog is a new initiative by IBM, allowing customers to browse for solutions by industry, business need, IT issue, geography, business segment and more! It is free to join and a great method of marketing your solution and partnership with IBM to potential customers.

If you are interested in participating, please contact us at [validate@ca.ibm.com](mailto:validate@ca.ibm.com)!
