

Ready for IBM Informix database software Validation

Looking to gain exposure by partnering with Informix? Here's your chance to become involved in the partner activities available for IBM Informix.

Informix Validation Program - Ready for IBM Informix data software

The Ready for IBM Informix database software mark can help you demonstrate your commitment to quality in the IT industry and show your customers your solution meets key IBM integration standards for Informix. The "Ready for IBM Informix database software" program allows vendors who have undergone the validation process to display the validation mark with their product marketing material.

Ready for

IBM | Informix.

database software

To Participate:

Please see "Complete_Ready_For_Informix.pdf" for full steps, documentation and details on participation. Available in Informix partner pack or at www.ibm.com/developerworks/informix/portal

Ready for Informix Solution Portal

www.ibm.com/developerworks/informix/portal

The Informix Solution Portal is an interactive web site designed to showcase our validated Ready for partners and their solutions. Here you will find detailed descriptions of each company, and the solutions they provide. This portal is truly a partner driven website as companies are granted full ownership over their pages. Each partner is given their own login information so that they can dynamically add the latest learning material, white papers and software downloads available!

IBM Information Agenda Catalog

www.ibm.com/imaccelerator

The IBM IA Catalog is a new initiative by IBM, allowing customers to browse for solutions by industry, business need, IT issue, geography, business segment and more! It is free to join and a great method of marketing your solution and partnership with IBM to potential customers.

If you are interested in participating, please contact us at validate@ca.ibm.com!
