## DB2<sup>®</sup> for z/OS<sup>®</sup> Terabyte Club Overview

### Be a Member of the Club!

Do you have a terabyte of data working hard in a data warehouse, operational data store, or data mart? If so, join the “DB2 for z/OS Terabyte Club”.

### How do I qualify?

Qualification includes running a query to verify the amount of data in your database is greater than or equal to 1TB and fully completing the application. The club administrators are the final decision makers concerning the output of the query and the completion of the application.

### What are the club benefits?

“**Silent Partners**” receive the following benefits.

- Access to the “askzDW” mail id which provides direct access to the zDW Swat team.
- Terabyte Club T-Shirt (up to 3 per customer)

A Silent Partner is a customer who has met the club admission requirements, but is not willing to have their company name listed in public club materials.

“**Full Partners**” receive the following benefits in addition to all the benefits listed above.

- All “Silent Partner” benefits
- Recognition at the Information on Demand Conference and via club materials.
- zDW Swat Team environment evaluation
- Top 15 members in terms of size will receive an executive visit.

A Full Partner is a customer who has met the club admission requirements, and is willing to have their company name listed in public club materials.

### How do I qualify my data warehouse?

Complete and submit the application on the opposite side. IBM can provide SQL to you to calculate the precise size.
