
Windows 2000™ - DWSAP 4.0 Support

DWSAP 4.0 support for Windows 2000

Summary

The desktop components of DWSAP 4.0 has been tested and certified under the following conditions:

- ❖ IDM Desktop 3.1 is required since that release is the Windows 2000 supported release for IDM Desktop.

Note that the server components (Serverlink, ServerQLink, LinkSAP) of DWSAP 4.0 are **not** supported with Windows 2000. DWSAP 5.0 server components as well as the desktop components , when released will support Windows 2000.

Also note that when upgrading current DWSAP Desktop installations to Windows 2000, the DWSAP Desktop will need to be re-installed.
