## Information center users say:

"I used to just download all the PDFs, but now I'm using the IC more than PDFs."

"The information center is a much better product than BookManager. Much easier to navigate and use."

"I prefer the information center because it's referenced by search engines, and I know I'm looking at the most up-to-date documentation."

## Installable information center: Take it with you!

Select which product information you want to install.
Receive email notices when updates are available for download.
Order the information center DVD (SK5T-7377) for a low cost from the IBM Publications Center: www.ibm.com/shop/publications/order.

## BookManager format is being discontinued

BookManager® books are not provided for IMS Version 11 or later and for DB2 10 or later. The information center includes all the same information as BookManager and PDF books, plus many improved features.

# Information Center features

1. Perform simple and complex searches.

2. Narrow a search by clicking **Search scope** and specifying the topics to search.

3. Print the displayed topic or its subtopics.

4. Search the displayed topic or its subtopics.

5. Collapse the Contents view.

6. Automatically refresh the Contents view to highlight the topic that is displayed in the Topics view.

7. Search within IBM.com.

8. Navigate among the topics that you previously viewed.

9. Return to the information center home page.

10. Synchronize the Topics view and the Contents view so that the displayed topic is highlighted in the Contents view.

11. Turn off and on the highlighting that displays in search results.

12. Submit feedback about the information.

13. Link to the same content in PDF.

14. Toggle between the Contents view and the Search Results view.
