

TOC**INDEX****VIEW****E70 IMS Transaction Manager Performance Considerations***Dave Viguers, IBM Silicon Valley Laboratory*

The IMS Transaction Manager supports high volumes and large networks very efficiently. However, there are many tuning variables which can have an effect on the overall performance of your IMS environment. This presentation looks at when, where and how the various storage pools and other transaction manager parameters can influence the throughput and performance of a message as it is processed through the IMS Transaction Manager.
