

# Troux

## Troux8

### Solution Description

The Troux 8 suite consists of four out-of-the-box business applications – Troux Alignment™, Troux Optimization™, Troux Standards™ and Troux eaGov™ – all leveraging power and business intelligence from the Troux Transformation Platform™ to help IT respond to priority business change and cost-restructuring agendas.

### Features & Benefits

Troux 8, the latest business-critical software suite from Troux Technologies, is designed to address today's urgent CIO agendas, and introduce ongoing IT management discipline. With Troux 8, you gain the visibility and control to:

- **Identify and eliminate redundant IT spending** - Uncovers the many untapped opportunities to free up unneeded spend and apply it either to your bottom line or to support new business initiatives.
- **Uncover and fix business/IT disconnects** - Shows how IT directly supports your business strategies and capabilities and ensures that mismatched spending can be eliminated. With Troux, you can think like a CFO and demonstrate control and business purpose for the billions that you spend by ensuring that all stakeholders have full information to hand.
- **Speed business response and simplify IT** - Speeds the creation and deployment of a set of standard, reusable building blocks that are proven to work in agile business cycles. With Troux 8, you can work with the business in real time and no longer wait three months for your team to come up with a plan.

### Value Proposition

The Troux 8 suite of applications – supported by the Troux Transformation Platform and optionally deployed with the help of Troux Services – help IT deliver business value quickly and on a continuous basis while addressing today's CIOs urgent agendas:

#### Reduce Costs

- Cut IT spending by reducing waste – eliminate the number of unnecessary applications, contracts and more
- Lower the costs of IT planning cycles

#### Minimize Risks

- Understand the impact of business and IT changes
- Address non-standard technologies that create business risks
- Improve regulatory compliance

#### Enhance Business Agility

- Support key business decisions with one-click intelligence
- Improve time-to-market with new products and services through faster delivery of business capabilities
- Anticipate change by roadmapping transformations with dynamic visualizations

### Company Description

Troux provides IT and business decision makers with proven Strategic IT Planning software to drive urgent cost restructuring and business changes. We show you where IT spending and programs are redundant or out-of-step with business strategy. With Troux, you can plan and manage the necessary changes, with live status information and guidance to all relevant employees and executives.
