

A Business Partner Solution for the Cross Industry Sector

Archiving Simplified

Integro

Accelerator for IBM InfoSphere Content Collector

Technology Description

The Accelerator for IBM InfoSphere Content Collector package provides a number of important archiving usability enhancements for Lotus Notes mail users including enhanced search, auto-retrieve, “drag-n-drop” archiving and full archiving capabilities through the Domino Web Access and iNotes browser interfaces. With these enhancements, Lotus Notes users interact with the email archive in a more familiar manner and the tools ease the user adoption within an organization. These enhancements are provided through an updated Lotus Domino Mail template specific to your desired Domino version and works with IBM InfoSphere Content Collector and IBM CommonStore 8.3.x or greater.

Features & Benefits

- Enhanced Search - Provides end users with a familiar search template.
- Full DWA and iNotes – Enablement of full features via a web browser.
- Auto-Retrieve - Provides an enhanced user experience when opening emails that have been archived.
- “Drag-n-Drop” archiving - Users can simply drag messages to pre-defined folders or subfolders to force archiving.

Value Proposition

Accelerator for IBM InfoSphere Content Collector provides many must-have features for email archiving and eDiscovery solutions. Integro developed the Accelerator for IBM InfoSphere Content Collector package through dozens of CommonStore deployments where these archiving capabilities were consistently requested by customers.

IBM Segment

- Enterprise Content Management

Business Function

- Archiving and Storage Optimization

Target Industry

- Cross Industry
