Cognos Software

Driving Broader BI Adoption with **Better Dashboard Solutions**

Watch this Webinar to discover new advances in IBM Cognos dashboarding.

Little,

If you're looking for a compelling way to demonstrate the value of BI to more of your business users, or if your current users are looking for more utility from existing dashboards, watch this webinar and see what's new in IBM Cognos dashboarding solutions.

[Watch this Webinar](#) to see exciting new capabilities demonstrated and learn how easy it is to:

- Create compelling and informative dashboards that business users will enthusiastically adopt
- Encourage user self-service in the creation of dashboards
- Deliver scalable dashboards that present consistent, accurate info users trust
- Take advantage of our unique "author once, consume anywhere" capability

Recent advances and additions make IBM Cognos dashboarding solutions more robust and flexible than ever. Watch our Webinar and discover these new dashboarding possibilities.
