| 12:30 – 13:30 | Topaz for Total Test Compuware will provide an overview of their “Topaz for Total Test” solution that helps you find and fix COBOL bugs earlier with automated unit test that ultimately helps cut down the time it takes to make sure code is fully tested/prepared. | Glenn Ester Compuware |
| 13:30 – 14:15 | IMS Database Performance This topic will look at the reasons IMS databases need to be reorganized. It will look at the internal structure of IMS databases and how those structures are affected by the inserting, deleting and reading of segments within the database. Some recommendations on how to improve database performance will be given. | Rick Long IBM IMS Level 2 DB Support Team |
| 14:15 – 15:00 | IMS Managed ACBs This topic will look as the use of managed ACBs available in versions 14 and 15 of IMS. It will describe what managed ACBs looks like and how to implement it. It will describe the requirements and changes which might affect customer installation procedures. | Rick Long IBM IMS Level 2 DB Support Team |
| 15:00 – 15:10 | Wrap-up and Closure | ALL |

*** NOTICE TO EMPLOYEES AND REPRESENTATIVES OF GOVERNMENT OWNED ENTITIES**

At this IBM function, Compuware is providing breakfast and lunch meals and/or promotional items and considers this a normal business courtesy. U.S. Federal government regulations and some state or local government agencies do not permit their employees to accept food or refreshments from contractors doing business with them. IBM provides this notice to assist you in ensuring that your acceptance of the amenities is in compliance with your employer’s internal policies. If your receipt of the amenities during your attendance and participation in the event presents an issue, please advise IBM and Compuware, and plan for alternate meal options.
