IBM IMS User Group Organization

Details

Date: May 5, 2015

Location: IBM Corporation
590 Madison Avenue, Room 1219
New York, NY

*Breakfast and lunch will be provided by IBM to attendees!**

***NOTICE TO EMPLOYEES AND REPRESENTATIVES OF GOVERNMENT OWNED ENTITIES**

At this IBM function, IBM is providing breakfast and lunch meals and/or promotional items and considers this a normal business courtesy. U.S. Federal government regulations and some state or local government agencies do not permit their employees to accept food or refreshments from contractors doing business with them.

IBM provides this notice to assist you in ensuring that your acceptance of the amenities is in compliance with your employer's internal policies. If your receipt of the amenities during your attendance and participation in the event presents an issue, please advise IBM, and plan for alternate meal options.

New York IMS User Group Meeting

May 5, 2015

IBM Corporation

590 Madison Avenue, Room 1219

New York, NY

Sponsored by IBM

8:30 – 9:00	Continental Breakfast and Registration	IBM
9:00 – 9:15	Welcome and Host Presentation	Poonam Chitale IBM Host
9:15 – 10:30	Mix it Up: How your enterprise assets fit perfectly with Bluemix With IBM Bluemix, you can rapidly build, deploy, and manage cloud apps; you have an ecosystem of services and runtime frameworks at your fingertips! What about Enterprise clients? How does Bluemix complement and enrich your mainframe systems of record? Kyle Charlet, z Systems Architect, is ready to give you the good news! Enterprise clients can also reduce time-to-market, explore new workloads, reduce TCO, and much more, by taking advantage of IBM Bluemix coupled with Liberty z/OS Connect. Learn how its capabilities in Java, Node.js, mobile backend development, and robust ecosystem become your competitive advantage!	Kyle Charlet IBM – IMS Architect
10:30 – 10:45	Break	
10:45 – 12:00	Real-Time Analytics from IMS Data Using the DB2 Analytics Accelerator Do you remember the good old days, when you had to issue long-running decision support queries against copies of data in data warehouses? The queries ran forever! Or when your DBA spent similar hours analyzing and fine-tuning the SQL queries themselves? The IBM DB2 Analytics Accelerator is a workload optimized, appliance add-on to DB2 for z/OS, that enables the integration of business insights into operational processes to drive winning strategies. It automatically accelerates select queries, with unprecedented response times.	Deepak Kohli IBM – IMS Development
12:00 – 13:00	Lunch – Provided by IBM*	
13:00 – 14:00	IMS Tools As DBA resources dwindle, IT often lacks adequate time and resources for developing new applications, pursuing new technologies and growing business You'll hear about the new features of the Autonomics Director, which can alleviate database-related outages by giving you the information needed to forecast the future. The latest Administration Console will combine information across your IMSplex and more – so you can better understand what the issues are and how to resolve them. We will also share use cases of how this can improve your day-to-day work as a DBA.	Richard Phipps IBM
14:00 – 15:00	Guardium Encryption and IMS Are your compliance and security organizations constantly challenging you with a continuing onslaught of requirements to demonstrate how you protect your data on z/OS? A holistic data security strategy for IMS should include encryption of sensitive data at rest. This presentation will discuss how IBM InfoSphere Guardium Encryption provides ability to protect IMS at rest data. The presentation addresses various Methods of Encryption and Implementation. A summary of monitoring of IMS activities for regulatory compliance is included.	Dennis Eichelberger IBM – Advanced Technical Solutions
15:15 – 16:00	Discussion and Demo: IMS and Java Are you an application architect, DBA, or developer who wants to access IMS data from Java environment but do not know where to start? This demo and open discussion will show how IMS works with Java, the IMS Universal Drivers and the IMS Catalog.	Poonam Chitale IBM
16:00 – 16:10	Meeting Close	Poonam Chitale IBM Host
