Getting up and running quickly with new technology is essential to business success. Thousands of customers leverage IBM Software Services to take their business to the next level and ensure their database environment is installed and running with minimal downtime.

What is a Quick Start Service?
A Quick Start Service from IBM Information Management Software Services is designed to get your new database environment up and running quickly. Additionally, we provide assistance with installation and configuration processes and help you exploit the newest functionality in

What's Involved
When you engage IBM Software Services, you can be confident you are working with the industry's leading experts. Our Data Server consultants assist you with the installation and configuration of Informix products. Gain Informix skills quickly and efficiently with expert advice and knowledge transfer directly from our consultants.

Working jointly with your staff, our consultants provide technical assistance and insight to support Informix in your unique environment.

Data Server consultants can:

- Prepare a customized roadmap to move you beyond basic implementation tasks to optimal database functionality
- Mentor your team with hands-on training and knowledge transfer to implement changes and get your new configurations up and running

Our consulting team will deliver a custom report detailing the installation process for your specific environment, configuration modifications made to the default database settings, and specific operational information required to administer your unique database system.

The primary activities in this services offering:

- Installation and configuration of Informix
- Creation of initial database
- Analysis of new Informix functionality that pertains to your environment
- How to implement Informix Multinode Active Cluster for High Availability to maximize availability
- Mentoring, hands-on training and knowledge transfer

Your independence is our greatest success

That is the underlying theme to our delivery approach for the IBM IBM Quick Start Services for Informix offering. We believe that nothing is more important than transferring our knowledge to your organization and supporting your objective to become self-sufficient.

Engage Today

With a world-wide team of highly trained services professionals, the IBM Information Management Services team can help build your solution with confidence while assuring that the business needs and expectations of your organization are met. Our experts are ready to assist your organization with:

- Establishing project goals, expectations
