Gestión de Expedientes Avanzada

¿Qué es la Gestión de Expedientes?

- La Gestión de Expedientes hace referencia a la coordinación de servicios, por ejemplo legales, financieros, sanitarios, etc. que habitualmente incluyen la creación de un expediente y el seguimiento de un proceso para garantizar la prestación de los servicios. La información relacionada con el expediente es accesible al equipo que colabora en su resolución.

- Una vez que se cierra el expediente, la información se conserva durante un periodo de acuerdo a la legislación

- Estos procesos son muy dinámicos y colaborativos. Requieren una gestión de eventos y habitualmente tienen una duración larga en el tiempo.

Diferentes tipos de 'Expedientes'

Facturas, contratos, empleados, vendedores, clientes, proyectos, quejas, excepciones, incidentes, auditorías, eDiscovery, etc.
