

IBM LotusLive™ Meetings

The smart choice!

With IBM LotusLive Meetings, online collaboration has never been easier or smarter.

Whether a colleague is working from home or a client is half way around the world, ideas and information need to pass freely and in real-time. That's why you need LotusLive Meetings, a full-featured online meeting service that integrates Web and video conferencing.

You can pull together a Web conference on the fly for one or hundreds – all with the same account. With IBM LotusLive Meetings, you can share your desktop, conduct demos and deliver presentations effortlessly, without ever leaving home. LotusLive Meetings lets you set up a meeting wherever - and whenever - you want. All you need is a Web browser.

“LotusLive Meetings has changed the way we do business...we no longer have to have our adjusters travel in order to have meetings. It has greatly increased our production, as a result.”

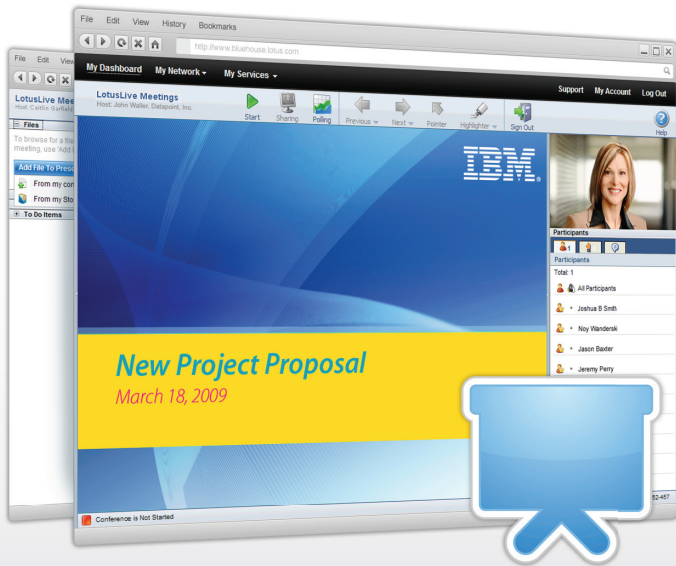

- Susan Cruz, Lozano Insurance Adjusters

LotusLive Meetings will give you a whole new way of doing business by using a Software as a Service (SaaS) model to deliver the collaboration services you need when you need them. Simply put, LotusLive Meetings can help you work smarter at a time when we are all obligated to pay attention to the bottom line.
