

QRadar BP Technical Enablement

May 3rd-4th 2016

Time: 09:00 – 18:00

**IBM Client Center Technology Solutions
IBM Madrid
Santa Hortensia, 26-28
28002 Madrid**

OVERVIEW

The 2-Day QRadar BP Technical Enablement course provides an introduction to the IBM Security Intelligence Platform (QRadar SIEM, QRadar Risk Manager, QRadar Vulnerability Manager, QRadar Incident Forensics, etc.). Students will learn the solution's architecture, understand the required elements to design a QRadar solution as well as learn the basic steps needed to start a QRadar (PoC) deployment. This class includes some lab exercises aimed at gaining a better insight of QRadar's working and deployment steps.

AGENDA

Day 1 (May 3rd): 9h00 AM - 06h00 PM

- > IBM QRadar overview
- > IBM QRadar Demonstration
- > IBM Architecture & Form Factor (ordering)
- > IBM QRadar for the MSSP
- > IBM QRadar Intergration

- Day 2 (May 4th) : 09h00 AM - 06h00 PM

- > Lab (uDsm, Custom Rule, Offense, Search)
- > Best Practices for a PoC
- > Use Cases

REGISTRATION

Send an email to ICCTS@es.ibm.com with the following information:

- Company.
- Name & Surname.
- DNI (or Passport number)
- e.mail.
- Phone number
- Name of the event of interest
