Aperçu de Lotus Domino Document Manager

- Fourni de façon globale à une organisation un contrôle et une sécurité de leur gestion documentaire métier.
- Permet l'acquisition, le stockage, le partage des documents
- Services de bibliothèques – Gestion des révisions et des réservations, contrôle d'accès avec historique pour audit sur document.
- Cycle de vie – Révision et approbation, publication, archivage
- Intégration avec les messageries classiques et instantanées
- Plusieurs Interfaces : Notes, Web, client Windows et par la bureautique
- Offre une granularité de contrôle d'accès aux documents.
- Permet l'intégration avec d'autres solutions IBM comme le Lotus Workflow, le Portail (WPS), Web Content Manager et DB2 Content Manager (Pour les documents composites)

Explorateur de fichiers du client Windows

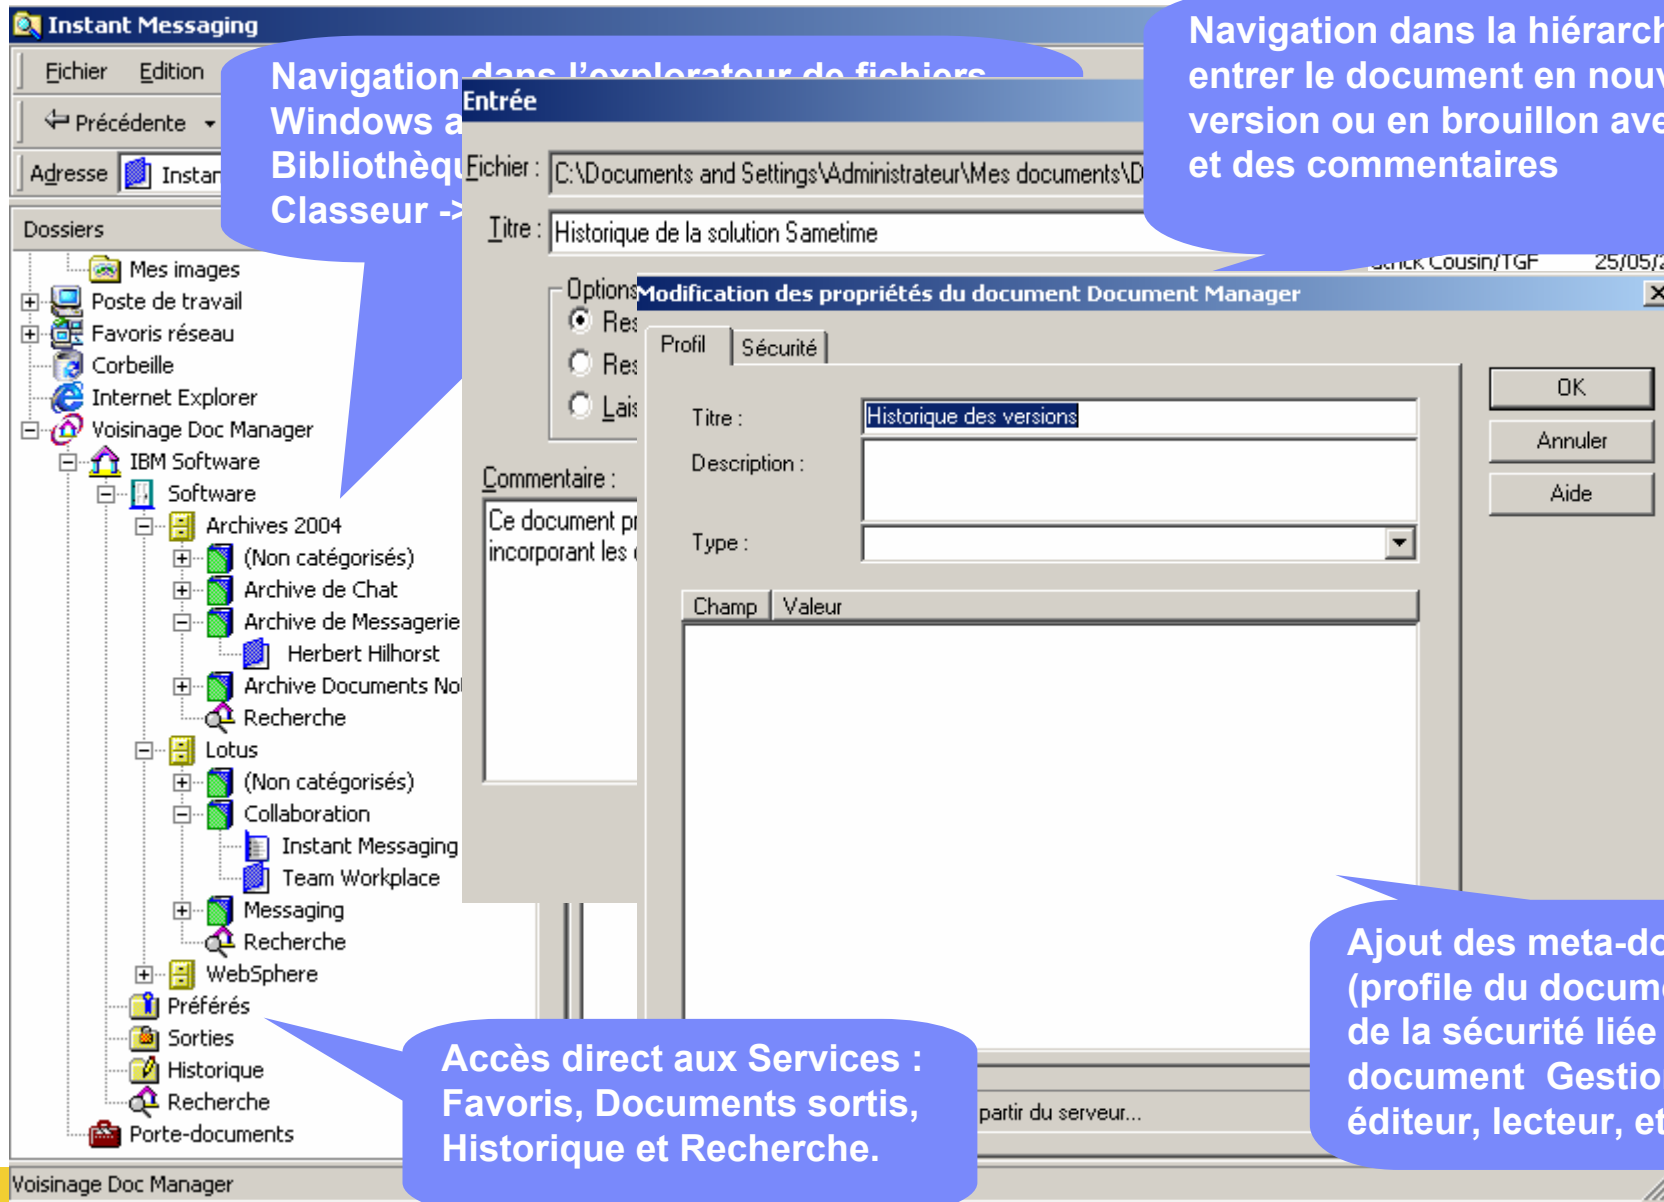

The screenshot shows the Windows Explorer window titled "Instant Messaging". The address bar shows "Instant Messaging". The left pane displays the "Dossiers" (Folders) tree structure, including "Mes images", "Poste de travail", "Favoris réseau", "Corbeille", "Internet Explorer", "Voisinage Doc Manager", "IBM Software", "Software", "Archives 2004", "(Non catégorisés)", "Archive de Chat", "Archive de Messagerie", "Herbert Hilhorst", "Archive Documents Notes", "Recherche", "Lotus", "(Non catégorisés)", "Collaboration", "Instant Messaging", "Team Workplace", "Messaging", "Recherche", "WebSphere", "Préférés", "Sorties", "Historique", "Recherche", and "Porte-documents".

The right pane displays a list of files with the following columns: Titre, V..., Etat, Type, Auteur, and Modifié. The files listed are:

Titre	V...	Etat	Type	Auteur	Modifié
Demo1	0.1	Brouillon verrouillé	Informations p...	Patrick Cousin/TGF	25/05/2004
LW Team Collaboration	1.0	Sorti	Informations p...	Herbert Hilhorst/TGF	26/05/2004

IBM Lotus Workplace Documents : fournir des services documentaires basés sur des standards ouverts

- **Services de base des Bibliothèques de documents**
Réservation (check-in/out), Gestion des versions, Recherche, Sécurité
- **Intégration directe** avec les autres applications collaboratives de Workplace.
- **Administration réduite** à travers une infrastructure d'administration mutualisée avec les autres composants collaboratifs de Lotus Workplace
- **Compte utilisateur en Auto-Provisioning**
Plus besoin de synchronisation des carnets d'adresses.
- **Plate-forme Ouverte**
Client Linux, pour les serveurs et les clients Mozilla.

Workplace Documents – Vue des Bibliothèques de Documents

Création d'un nouveau Document

The screenshot shows the IBM Lotus Workplace interface in Microsoft Internet Explorer. The browser title is "IBM Lotus Workplace - Microsoft Internet Explorer". The address bar shows the URL: http://lwp3602.notesdev.ibm.com/lwp/myworkplace/!ut/p/_s.7_0_A/7_0_2I0?WP_CDOGUID=_9D_004GH1G5DA06H9UO_B65&LBM=Y&WP_RPID=LWP_11_004GH1G5D. The page title is "Lotus. Workplace". The user is logged in as "Susan Adams12" and the date is "May 11, 2004". The "Marketing Materials" tab is active. The "Document Manager" window is open, showing a list of documents. The "New" menu is open, and "Microsoft Word (.doc)" is selected. The list of documents includes:

	Author	Last Modified
<input type="checkbox"/> Lotus Wrokplace Overview presentation	SusanAdams12	5/11/04
<input type="checkbox"/> Workplace Competitive Comparison	SusanAdams12	5/11/04
<input type="checkbox"/> Lotus Workplace White Paper	SusanAdams12	5/11/04
<input type="checkbox"/> Lotus Workplace Documents Spec Sheet	SusanAdams12	5/11/04

The screenshot shows a web browser window displaying the Lotus Workplace interface. The address bar shows a URL from `http://wlp3602.notesdev.ibm.com`. The page title is "Lotus Workplace" and the user is logged in as "Susan Adams". The interface includes a navigation menu with "My Workplace", "Workplace Builder", "Administration", and "My Favorites". The main content area is titled "Legal Documents" and shows a "Document Manager" sidebar with "Save", "Save as Private Draft", and "Cancel" buttons. The "Document Edit" section shows the document title "Lotus Workplace Documents 2.0 White Paper" and the file name "u6.doc". The "Open File" button is highlighted with a mouse cursor. The "Document Language" is set to "English". The "Send a Link" section has two radio buttons: "Do not send a link to anyone" and "Send a link to these people".

Overlaid on the interface is a Microsoft Word window titled "u6.doc - Microsoft Word". The document content is as follows:

Lotus Workplace Documents 2.0

Simplifying document management for users and IT staff

IBM Lotus Workplace Documents 2.0 Highlights

- Provides Lotus Workplace users with fundamental document organizing, sharing and handling capabilities
- Helps users easily access, collaborate, store and manage important documents and information from a single corporate repository
- Lets users edit a document, spreadsheet or presentation and upload it for storage — even if they don't have access to the application used to create it it was created in
- Gives users the flexibility to work offline or online, in a security-rich environment
- Offers fast, easy search capabilities across multiple document libraries, enabling users to quickly find the information they need to do their jobs effectively
- Enables users to save and archive e-mail and attachments to increase operating efficiencies and adhere to compliance specifications
- Lets you leverage IBM DB2 Content Manager as a central repository

Exemple de portail intranet

The screenshot shows an IBM intranet portal for user Lee Dierdorff on June 5, 2002. The interface includes a navigation bar with tabs for Home, My Work, My Network, My Learning, and My IBM. A left sidebar contains a menu with sections like 'Home', 'Essential Links', 'Travel', 'Team Rooms', 'Communities', and 'My Team'. The main content area features a news section with articles such as 'Technology Group announces realignment' and 'John Kelly, Linda Sanford and John Joyce discuss recent technology actions'. A search bar is visible with the name 'Luis H Rodriguez' entered. On the right, there is an 'EMAIL/CALENDAR' section with options to read or send email, a calendar for April 2001, and a 'Web/Tele Conference' section listing upcoming meetings like 'Dynamic Workplace' and 'DB2 ODC Validation'. Callouts highlight specific features: 'Personnalisation des liens' points to the sidebar menu; 'Travail en équipe virtuel' points to the 'My Team' section; 'Présentiel' points to the contact list; 'Contenu personnalisé' points to the news articles; 'Bibliothèque' points to the 'MY DOCUMENTS' section; 'Trouver des personnes' points to the search bar; 'e-Learning' points to the 'My Learning' tab; 'Services personnalisés par l'employé' points to the 'My IBM' tab; 'Messagerie & Calendrier' points to the email and calendar section; and 'Réunions virtuelles' points to the conference section.

Outils bureautiques intégrés pour la création / modification de documents

- Editeurs texte riche, feuille de calcul et présentation
- Disponible depuis le navigateur et sans **aucune installation** sur le poste client
- **Aucune licence** à acquitter
- Convertisseur de formats de documents : un document MS Word peut être lu par la suite Lightweight Office
