IBM SolutionsConnect 2013

Découvrir la solution de gestion des actifs métier (Enterprise Asset Management) - MAXIMO

Jean-Marie Desaunay – Smarter Infrastructures
Architect

#solconnect13

IBM SolutionsConnect 2013

Agenda

- Impact and Value of Enterprise Asset Management (EAM) ←
- Enterprise Asset Management Capabilities
- Focusing on 3 key performance domains of asset Management
 - Helath, Security and environment
 - Resources scheduling
 - Mobility

#solconnect13

IBM SolutionsConnect 2013

EAM: Enabling the world's smarter infrastructure

*Businesses
depend upon
infrastructure to
meet their goals*

\$447 Billion is spent globally
on maintenance

*People depend
on infrastructure
to live their lives
and pursue their
dreams*

Rail will support 4.8 trillion
passengers growing 4.8%
annually by 2020 globally

*Societies
depend upon
infrastructure to
care for its
citizens*

In the last 100 years, water
use has been growing twice
as fast as the population

#solconnect13

IBM SolutionsConnect 2013

Consider how our world is changing: Our world is becoming more...

INSTRUMENTED

- **By 2010, 30 billion** embedded RFID tags in our daily life, communicating across the entire ecosystem
- **1/2 of all sensors** in transportation, facilities & production equipment are smart sensors (e.g. robots, kiosks, meters, PDAs, appliances, cameras, smart phones, biometric devices, turnstiles or the Web).
- By 2010, **12% of new cars** will ship with embedded telematics.

INTERCONNECTED

- **1/3 of the world's population** is utilizing the Web by 2011
- **4B mobile subscribers** globally at the end of 2008
- The **interconnection of people and things**—customers, drivers, employees, roads, aircraft, airports, cargo, suppliers—creates the ability to improve performance and **quicker decision making**

INTELLIGENT

- **15 petabytes of new information** generated every day.. (8x more than the information in all U.S. libraries)
- An average company of 1,000 employees spends \$5.3 million a year to **find information** stored on its servers.
- Sophisticated **analytic systems** enable patterns to be recognized, relationships to be drawn and **continuous decision making** and in near **real time to drive smarter outcomes.**

#solconnect13

IBM SolutionsConnect 2013

The world is getting smarter

Smart traffic systems

Smart oil&gas technologies

Smart food systems

Smart healthcare

Smart energy management

Smart retail

Smart water management

Smart supply chains

Smart manufacturing

Smart buildings

Smart cities

Smart regions

#solconnect13

IBM SolutionsConnect 2013

In this smarter world, we need to manage our infrastructure

An infrastructure that is **instrumented, interconnected** and **intelligent**.

An infrastructure that brings together **business and IT** to create new possibilities.

An infrastructure that is more **dynamic**

Transportation Infrastructure

Facilities Infrastructure

Production Infrastructure

Technology Infrastructure

Communications Infrastructure

SERVICE-ORIENTED...

- Rapid service deployment
- Reusable service components
- Secure and reliable processes

AND SERVICE-MANAGED

- Integrated management across all assets
- Service visibility, control, and automation
- Manage complex, rapid changes

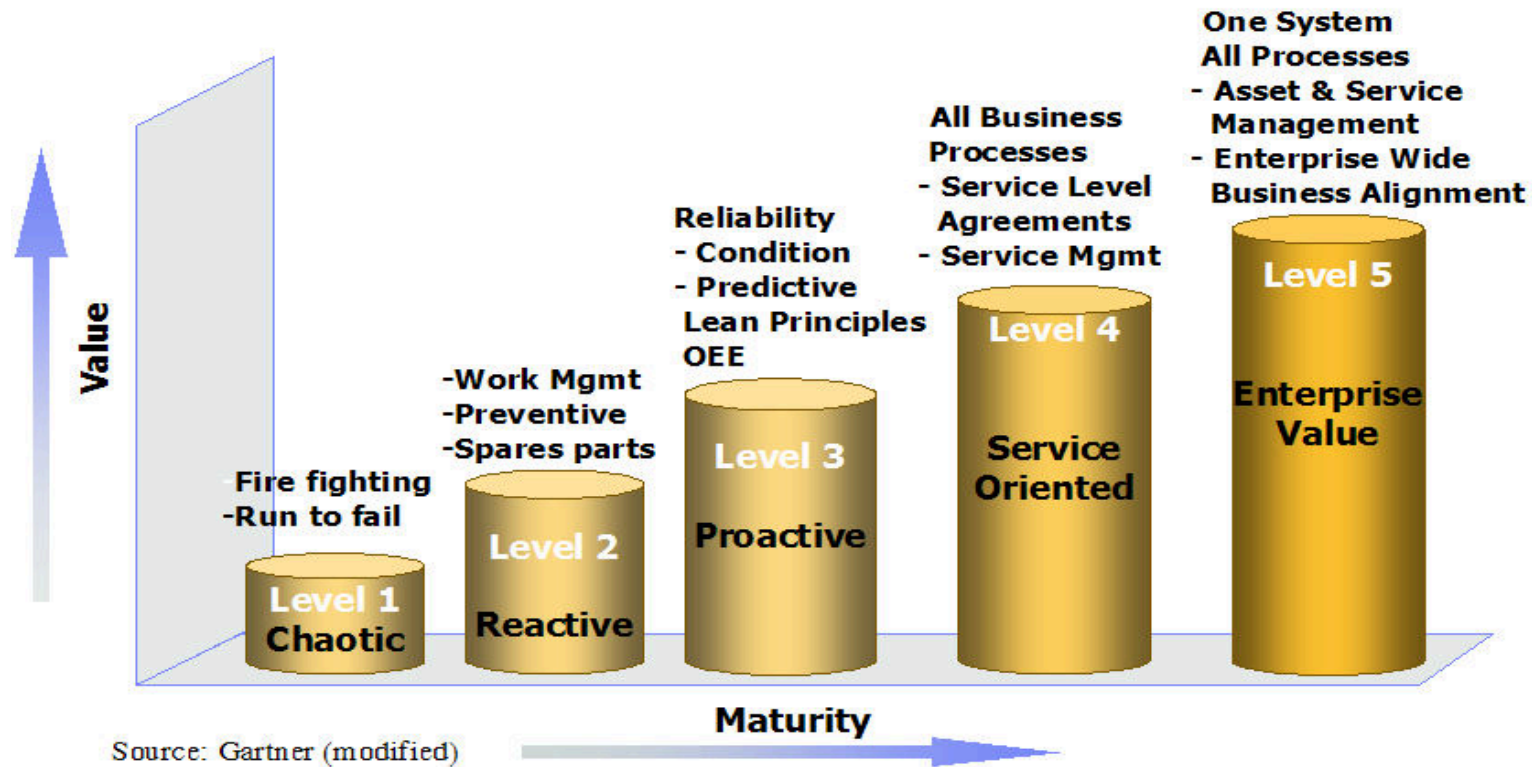

#solconnect13

IBM SolutionsConnect 2013

Objective: Increase Performance and Decrease Costs In Asset Management ...

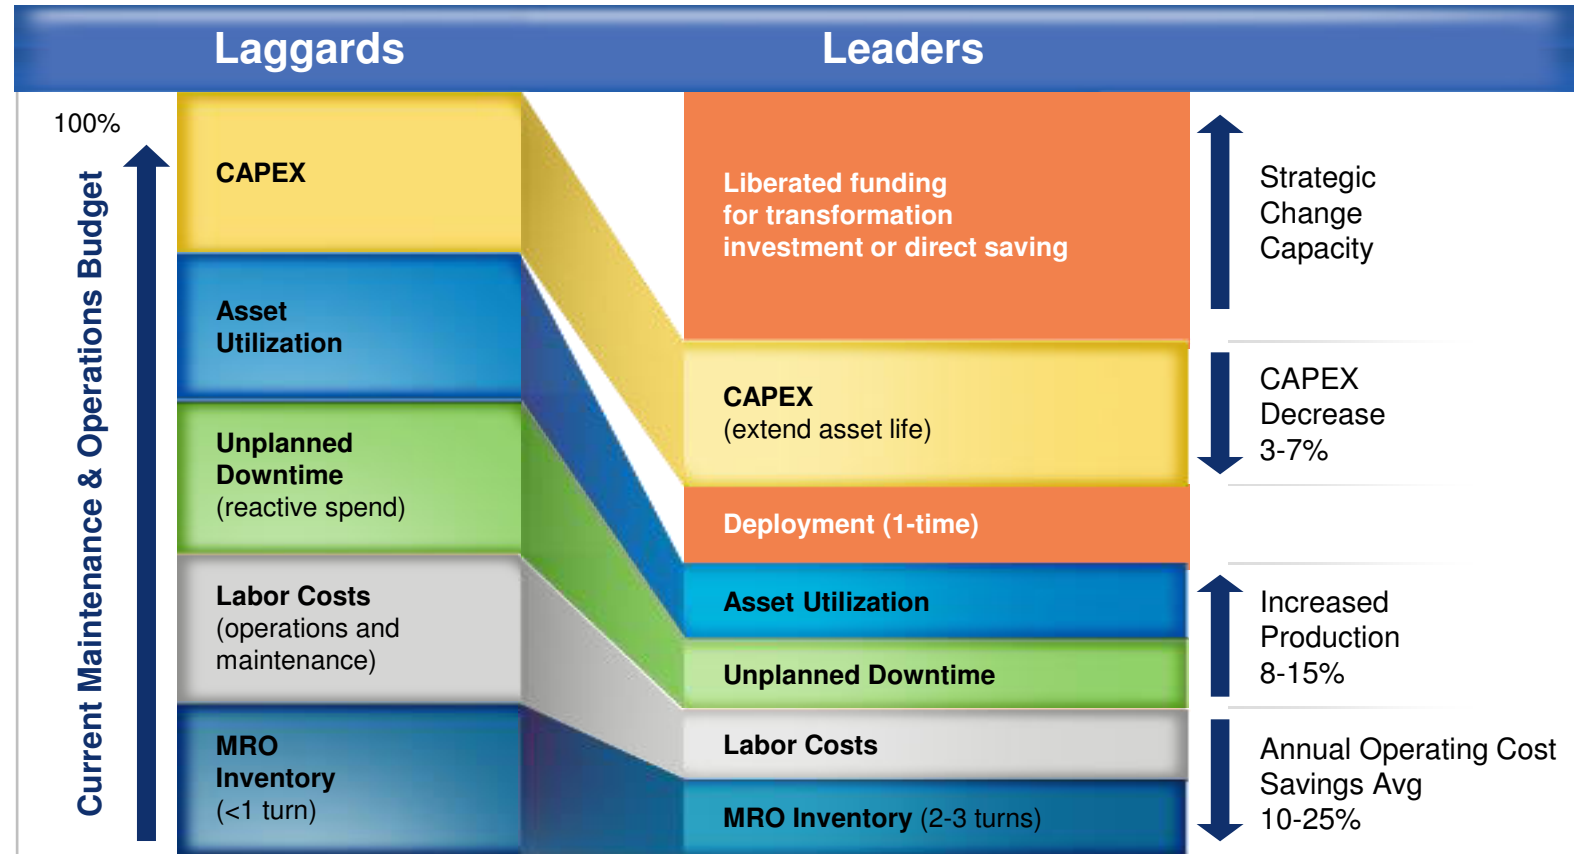

#solconnect13

IBM SolutionsConnect 2013

Enterprise Asset Management is critical in asset intensive organizations

- Contributes to the bottom line
- Asset performance creates saleable capacity or reliability
- Inhibitors to success:
 - Too much investment in Inventory
 - Labor spent on non Value Add Activity
 - Resulting Downtime impacts availability

Industry Leaders Use EAM as a Competitive Advantage

Maximo Solutions

Maximo
Asset
Management

Core Solutions

Stand-alone solutions for asset, facility and real estate management.

Industry Solutions

Industry-specific capabilities for the unique requirements of asset-intensive industries.

Maximo
for
Transportation

Maximo
for Life Sciences

Maximo
for Nuclear

Maximo
for Utilities

Maximo
for Oil & Gas

Maximo
for Government

Add-on Solutions

Additional options, used with core or industry solutions, provide deeper functionality for specific needs.

Integration Adapters

Commercially-supported integration to other enterprise and 3rd party systems.

Maximo
Adapter for SAP

Maximo
Adapter for Oracle

Maximo
Adapter for Primavera

Maximo
Adapter for MS Project

IBM SolutionsConnect 2013

Asset Management helps improve service, reduce cost and manage risk by

- ✓ Managing assets through all the stages of their **lifecycle**
- ✓ Managing **all asset classes** in a single system – Production, Facilities, Transportation, Infrastructure, Technology, Communications
- ✓ Supporting **converged assets** as they become intelligent and interconnected
- ✓ Applying deep **industry** specific solutions

#solconnect13

IBM SolutionsConnect 2013

Agenda

- Impact and Value of Enterprise Asset Management (EAM)
- Enterprise Asset Management Capabilities
- Focusing on 3 key performance domains of asset Management
 - Health, Safety and environment
 - Resources scheduling
 - Mobility

#solconnect13

IBM SolutionsConnect 2013

Three Questions ...

- Do you feel safe and comfortable ?
- Did you get to this room easily and on time ?
- Did you get all the information you needed on this event and will exchange and network with your colleagues ?

#solconnect13

IBM SolutionsConnect 2013

What do our customer try to avoid ...???

Disasters

Lack of coordination
& Scheduling

Lack of Mobility
& Flexibility

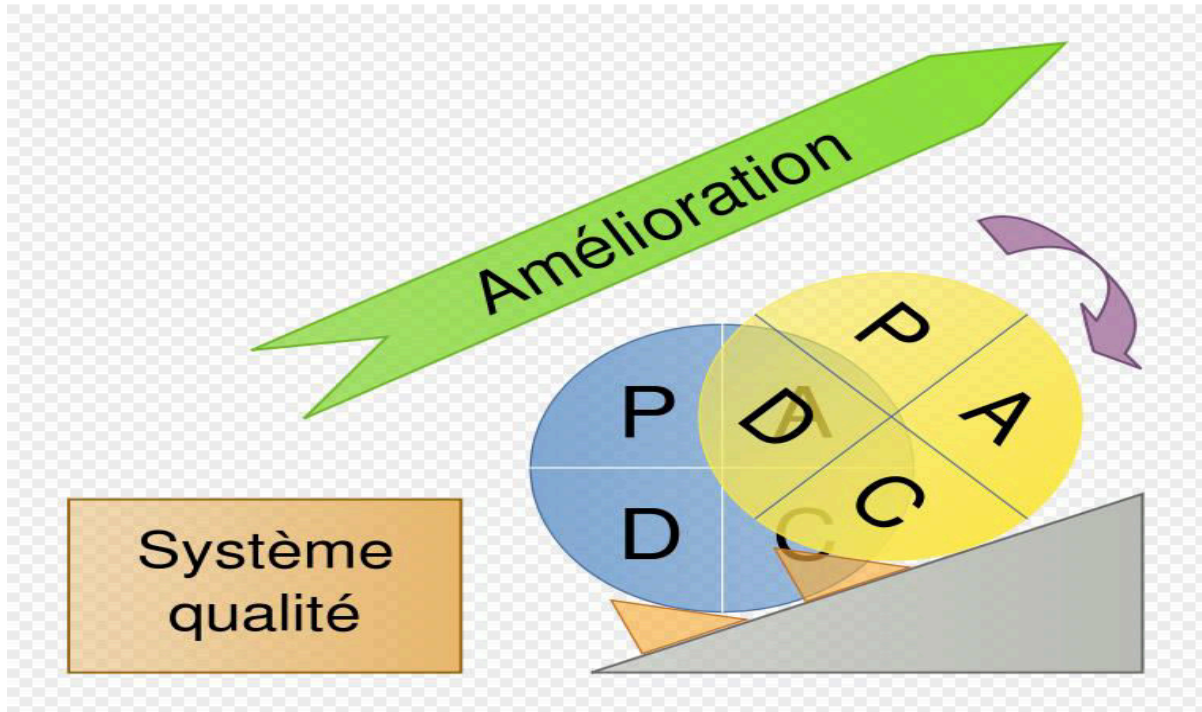

#solconnect13

IBM SolutionsConnect 2013

Maximo HSE (Health, Safety & Environment)

- **Plan** : Prévoir, préparer, planifier
- **Do** : Exécuter, réaliser, mettre en œuvre
- **Check** : Contrôler, vérifier
- **Act (ou Adjust)**: Améliorer, ajuster, réagir

Roue de Deming dessinée par [Christophe.moustier](#) disponible sur Wikipedia

Maximo Scheduling and Dispatching

#solconnect13

IBM SolutionsConnect 2013

Target users..

Scheduler/Planner

- Defines and adjusts labor/crew availability along with resource leveling
- Capacity Planning
- Assigns work orders to resources
- Continuously optimizes the schedule as the operational environment changes
- Sequence and route work assignments based on geography

Dispatcher

- Monitor field resources and work order progress and status
- Monitor the location of field resources compared to open orders
- Enter status and complete work orders on behalf of technicians who don't have mobile devices
- Sequence and route ongoing work assignments based on geography and optimization

Field Technician

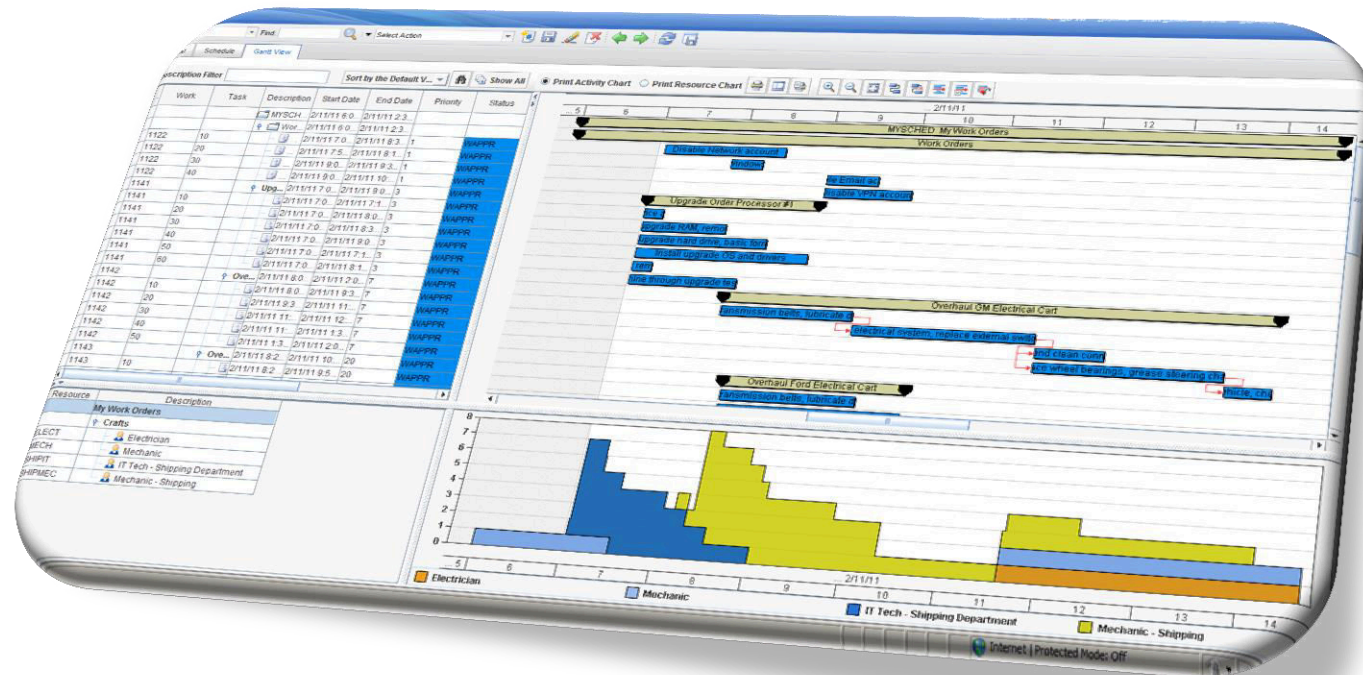

- Supervisor approves and assigns work on mobile devices
- Receive work orders in the field and provide real time status updates to dispatch
- Complete, edit and approve work orders on mobile devices along with viewing work on a map with optimal driving directions
- Notify dispatch of potentially dangerous situations, incomplete work

IBM SolutionsConnect 2013

Maximo Scheduling

IBM SolutionsConnect 2013

Maximo Graphical and Geographical assignment

#solconnect13

IBM SolutionsConnect 2013

Maximo Scheduling : The right balance à the right time

- Completing planned work without overtime.
- Responding quickly to emergency situations.
- Making the most productive use of the mobile field workforce.
- Making and keeping customer commitments.
- Providing technicians easy access to the information they need.
- Reducing travel time
- Optimizing resources and costs.

IBM SolutionsConnect 2013

Maximo Anywhere : The power of Maximo in your hand !!

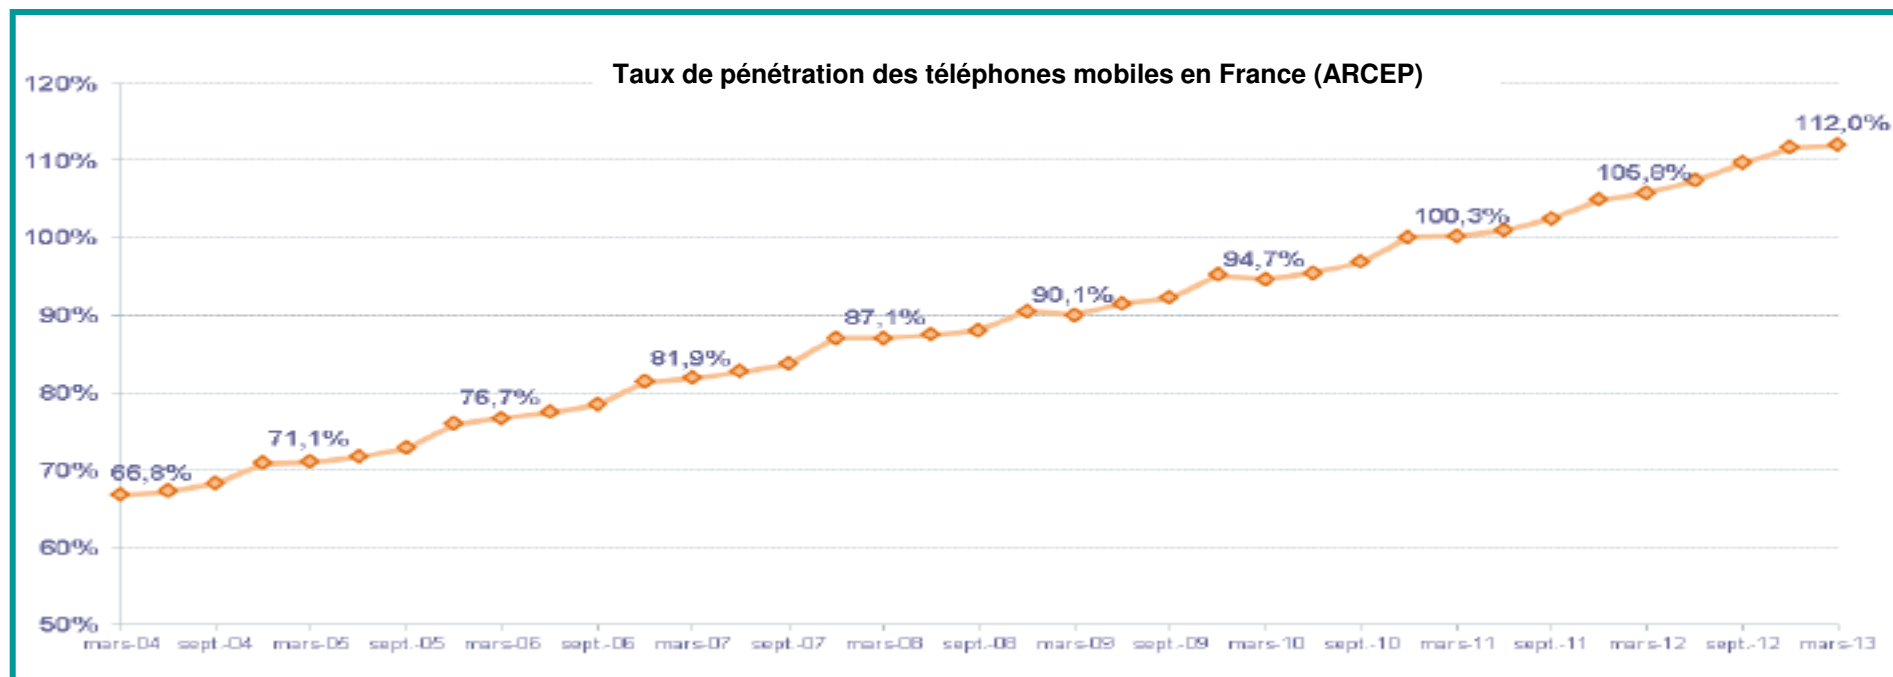

#solconnect13

IBM SolutionsConnect 2013

Un constat ... Une question ...

Pourquoi ?

#solconnect13

IBM SolutionsConnect 2013

Les raisons du succès

- Lien virtuel
- Instantané
- Permanent
- Facile
- Sure
- Robuste
- Rentable

→ Ces critères s'appliquent aussi dans le cadre de la gestion des processus métiers et tout particulièrement dans le cadre de la gestion du cycle de vie et de l'exploitation des actifs

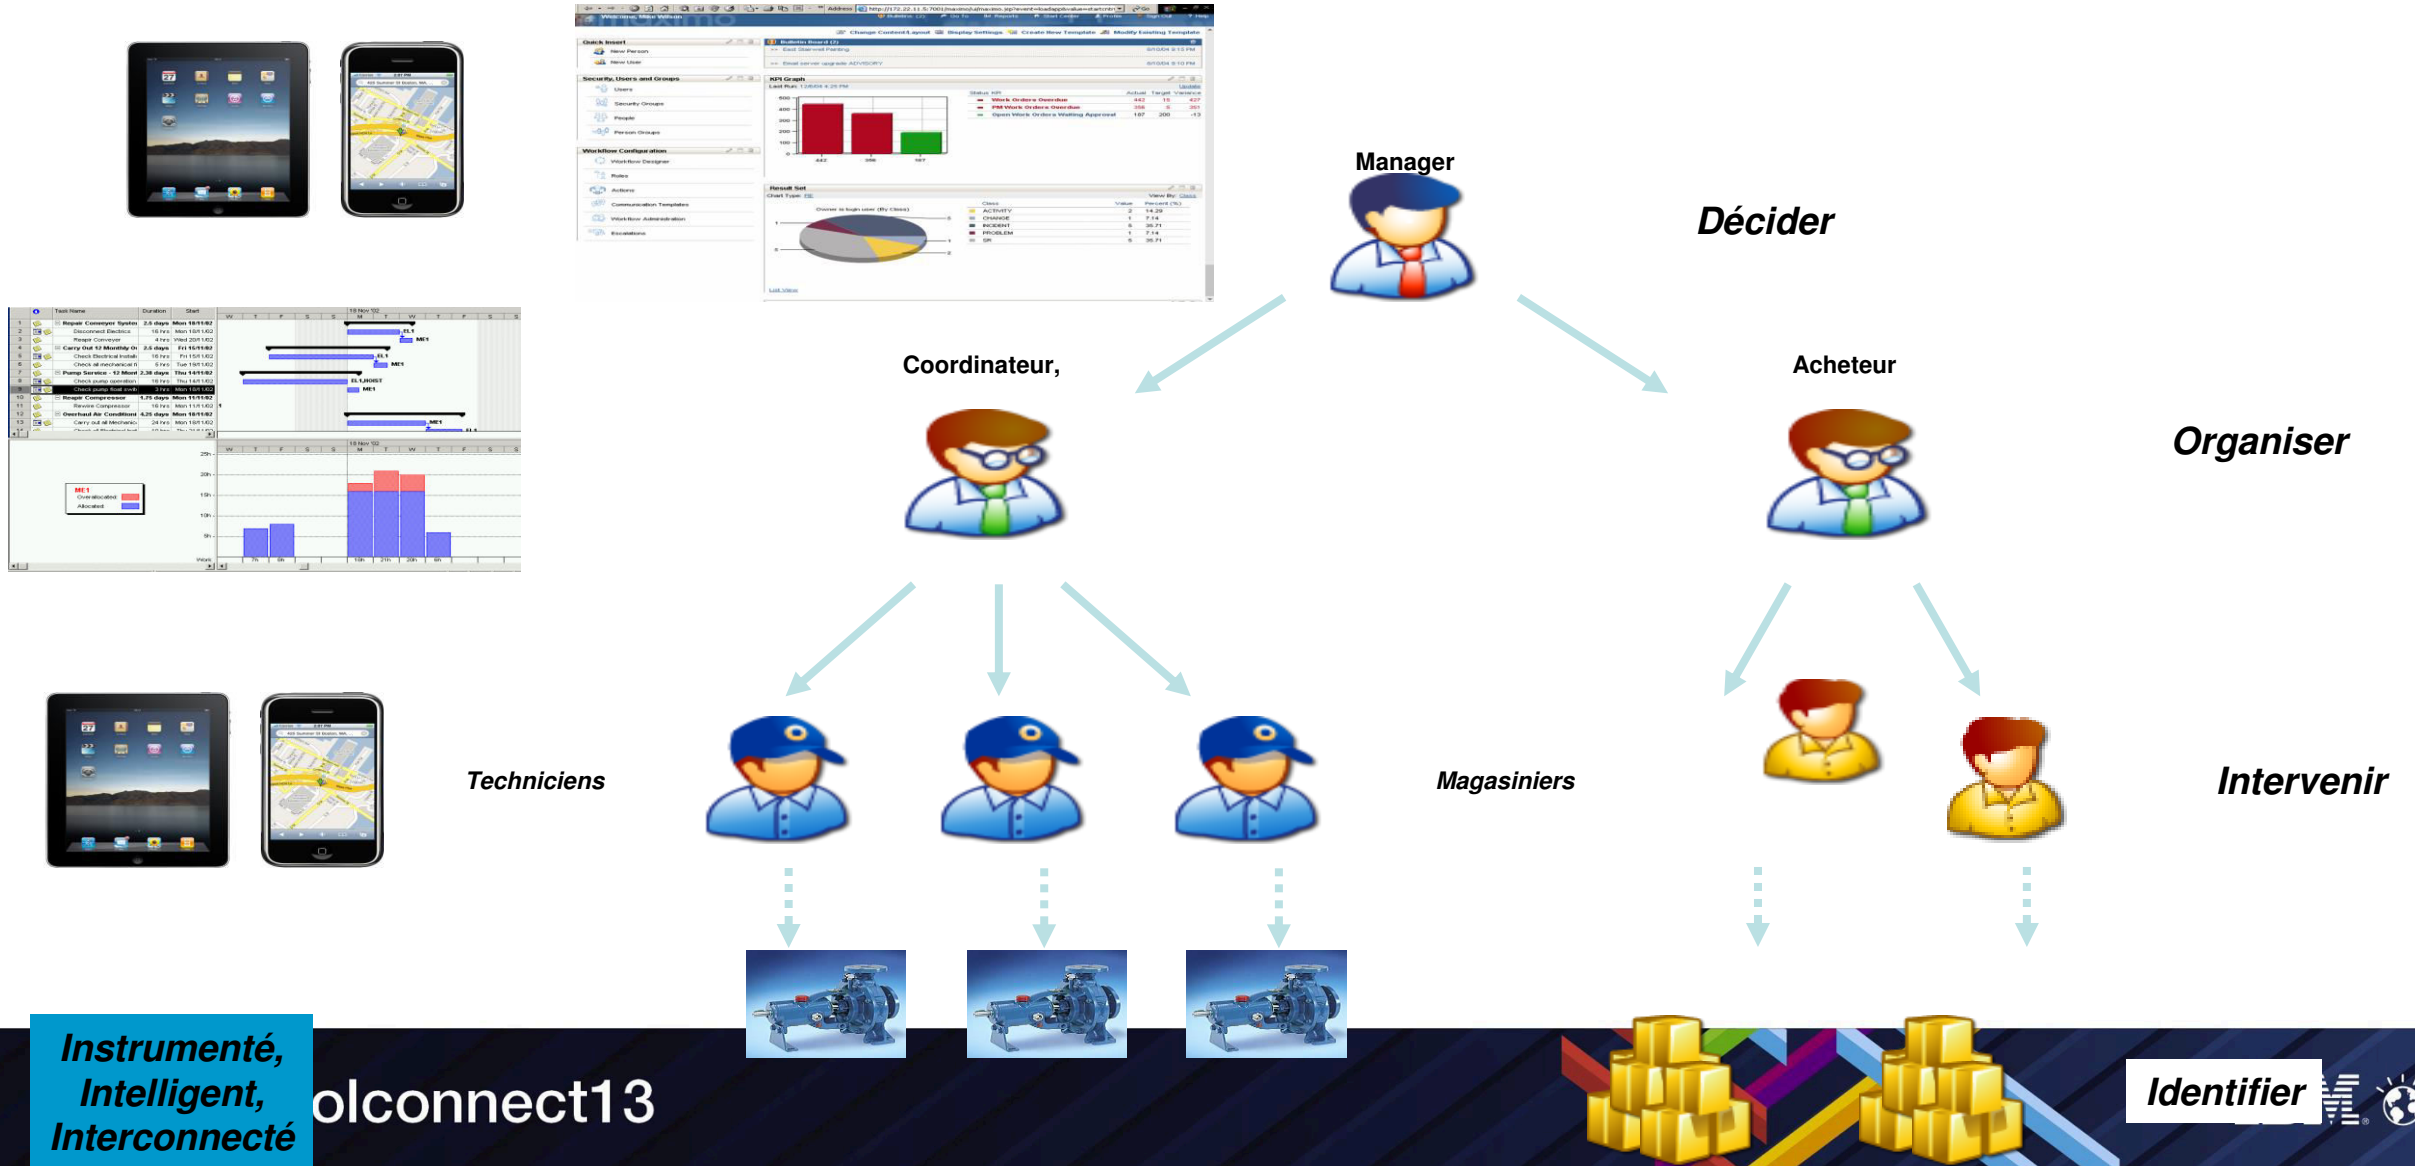

#solconnect13

IBM SolutionsConnect 2013

Maximo Anywhere : Who will benefit ?

Instrumenté,
Intelligent,
Interconnecté

olconnect13

Identifier

IBM SolutionsConnect 2013

Donc, ...

- La mobilité est un fait incontournable de nos jours parce que :
 - Le métier le demande,
 - Notre technologie le permet,
 - Les bénéfices sont très importants
 - Toutes les tailles d'organisations en profitent
- La mobilité n'est pas une solution isolée, elle doit s'intégrer et non pas s'interfacer :
 - Avec des référentiels
 - Dans un processus
 - Au sein d'une architecture
- La mobilité doit être le prolongement sur le terrain des fonctions centrales
 - En assurant la permanence du lien
 - La facilité d'utilisation
 - L'unicité de l'information
- La mobilité optimise
 - La qualité des données
 - L'exhaustivité des données
