

A Cloudy Concoction

We love clouds. White ones, grey ones, fluffy ones, shy retiring private ones, big brash public ones, interesting hybrid ones. Come fly with us in Las Vegas at Impact 2014 and join our range of cloud-based sessions, labs, demos and more, and get the latest updates on CICS® and the cloud from our eminent CICS geniuses. They're so smart and have so many wild ideas that we told them to get their heads out of the clouds, then we realised that actually, that's just where they should be..
